this unique reading programme has been developed after many years of working as an occupational therapist with children with dyslexia attention deficit adhd and other reading and learning difficulties it has been designed specifically for easy use by parents grandparents and au pairs providing a progressive series of games which are fun to play and which take your child developmentally through the stages of learning to read it can also be used by teachers and remedial teachers as a supplement to their usual lessons because it follows the correct developmental stages of reading a major difference between this programme and many other programmes for reading is the emphasis on movement rhythm and rhyme parents are often surprised that i encourage movement when teaching reading foundations they are also usually pleased that at last they can stop the fight of trying to keep their child sitting still and focussing quietly while trying to practise his reading movement is fundamental to this programme and rhythm and rhyme are intrinsically linked to movement the section on vestibular processing explains why i have found this to be so necessary and yet overlooked when teaching reading in the introduction i give the reader a brief overview of the underlying principles that have informed my approach i also help the reader identify the developmental foundations that children need in order to begin to learn to read and understand how each developmental step prepares the way for the next this is not an in depth academic diatribe on neuro development it is an overview designed to inform and empower the reader to be able to get the best out of the programme indeed i have found that when i empower parents this way they usually go away to return with even better more creative ideas and their children progress so much faster reading does not begin with the recognition of written letters and how they combine to make words children need to learn to become aware of sounds within words and to be able to separate sounds from each other they need to be able to play with sounds they also need

to recognise shapes of letters and remember the sounds they represent there is such a lot of learning that needs to be achieved before we can really begin a formal reading lesson the games in this book start at the early developmental stage of learning to listen actively to the different constituent sounds in words and to play with the sounds of words these early games can be played in the park or garden since no books are needed young children who are not yet ready to learn to recognise written words can play these games and develop a strong base on which to build writing and spelling the games then continue to follow the development of the foundation skills needed for reading until the last section of games where actual reading is introduced when the children reach the section of reading text it is presented in rhymes that they have already learnt this not only builds their confidence but also helps them to read with natural flow and tone the ability to recognise words in different fonts is also introduced at this stage each game is presented in easy to follow steps like following a recipe the main aim of the game is briefly described followed by any equipment you might need and where you should play the game equipment is kept minimal and simple and most games are designed to be played in and around the home or garden this makes it easy for parents and children to decide at any time to play a game without much planning ahead an illustration for each game makes it easier to find when paging through quickly and stimulates your child's imagination and interest at the end of the book a series of worksheets is presented these are mostly lists of letters phonic blends and words presented in large bold font and with some grading to develop your child's ability to recognise letters and words in different fonts

these worksheets are perfect for early learners there are 100 pages of interactive practice that will help your child learn the alphabet sight words counting vocabulary and more some activities are as simple as matching numbers to objects while others involve tracing writing and coloring this bundle of worksheets includes alphabet tracing sight word practice

picture math label color and much much more a great way to keep your kindergartener busy while learning new concepts help your child become a kindergarten success with this easy to use workbook organized in an easy to follow learn as you go format worksheets for kindergarten alphabet introduces kids to letters of the alphabet and how they are used in words and sentences this book is one he has developed using his own teaching and learning experiences in the classroom
