a state s financial power is built on the effect its credit property and tax policies have on ordinary people this is the key message of leonard seabrooke s comparative historical investigation which turns the spotlight away from elite financial actors and toward institutions that matter for the majority of citizens seabrooke suggests that everyday contests between social groups and the state over how the economy should work determine the legitimacy of a state s financial and fiscal system ideally he believes such contests

compel a state to intervene on behalf of people below the median income level leading the state to broaden and deepen its domestic pool of capital while increasing its influence on international finance but to do so seabrooke asserts a state must first challenge powerful interests that benefit from the concentration of financial wealth seabrooke s novel constructivist approach is informed by economic sociology and the work of max weber this book demonstrates how domestic legitimacy influences the character of international financial orders it will interest all readers concerned with how best to transform state intervention in the economy for the good of the majority

the second edition of this guide to basic reference sources in the social sciences contains nearly three times as many entries 2 200 as the earlier edition and also includes several other notable enhancements in addition to revising and substantially enlarging the chapters on reference sources li has further increased the usefulness of this reference volume by adding a chapter on geography and one on business that is distinct from economies since the publication of the first edition there have been two obvious developments in information storage and retrieval the rapid development of online databases and the development of cd rom instead of devoting a separate chapter to these developments the book incorporates online databases cd rom and other forms of data sources into the text in addition there is a brief introduction to these developments although the general deadline for inclusion in the volume was december 1988 quite a few titles published in 1989 are included
