this is the most thorough and detailed monograph on the artwork of raymond jonson he is one of many artists of the first half of the twentieth century who demonstrate the richness and diversity of an under appreciated period in the history of american art visualizing the spiritual was one of the fundamental goals of early abstract painting in the years before and during world war i artists turned to alternative spirituality the occult and mysticism believing that the pure use of line shape color light and texture could convey spiritual insight jonson was steadfastly dedicated to this goal for most of his career and he always believed that modernist and abstract styles were the most effective and compelling means of achieving it

it has long been an accepted assumption that the abstracted mode of visual representation that emerged in late antiquity reflected a collective shift from the outer directed and material world view of classical antiquity to an inner directed spiritual mentality informed by christianity the purpose of this volume is to offer a more nuanced and diverse image of the nature and meanings of abstraction and symbolism in late antique and early medieval art beyond normative interpretation models and from a number of different methodological and interpretative perspectives in ten chapters ten authors specialised in various fields of late antique and byzantine art explore the historiographical background of the spiritual interpretation paradigm neuroscientific and theological dimensions of christian visual aesthetics meanings and motive factors behind apparently wholly abstract and aniconic compositions symbolic motifs and schemes for visualising cosmic order and the cosmic state of christ and the re use of symbolic greco roman themes in christian contexts the result is a multi focal image of late antique abstraction and symbolism that illuminates the heterogeneity and complexity of the phenomena and of their study
