contributed articles presented at two seminars on regional planning and participatory rural development predominantly on west bengal held at dept of economics with rural development vidyasagar university

this edited volume explores and makes explicit the links between neoliberal economic

policies and right wing ideology the book focuses on the case of the us while situating these trends in the global political economy the book brings together contributions from an interdisciplinary perspective integrating economics political science and sociology to examine the connections between the economic precarity generated by neoliberalism and the rise of the far right the book argues that the creation of a flawed capitalist system has left a vacuum in policymakers ability to understand the impact of economic policies on human welfare and mental health and can be directly linked to a right wing populist movement driven by the frustrations associated with the transition from an industrial to a post industrial economy chapters consider the history of neoliberalism and comparative studies of socio economic conditions before tackling specific issues associated with neoliberal policy such as the demise of unions the decline in manufacturing jobs the gig economy trickle down economics income inequality and the rise of elites in america this book will be of interest to a broad range of readers including those in politics economics sociology industrial organization and labour studies

law can be viewed as a body of rules and legal sanctions that channel behavior in socially desirable directions for example by encouraging individuals to take proper precautions to prevent accidents or by discouraging competitors from colluding to raise prices the incentives created by the legal system are thus a natural subject of study by economists moreover given the importance of law to the welfare of societies the economic analysis of law merits prominent treatment as a subdiscipline of economics this two volume handbook is intended to foster the study of the legal system by economists the two volumes form a comprehensive and accessible survey of the current state of the field chapters prepared by leading specialists of the area summarizes received results as well as new developments source inconneue

the european debt crisis in the early to mid 2010s brought to the fore the issue of household debt distress in the countries affected widespread over indebtedness resulted in serious financial and social challenges the crisis was primarily a mortgage debt crisis but in several cases the legal response was based on the introduction of personal insolvency procedures this paper examines the challenges in designing and implementing legal reforms in this area to promote a better understanding of the main considerations in resolving personal insolvency and distressed mortgage debt in the context of crises lessons from the european crisis may prove valuable when dealing with the aftermath of the covid 19 pandemic and the war in ukraine on household debt distress

several recent twin currency and banking crises were preceded by lending booms during which the banking system financed rapid growth of the nontradable n sector by borrowing in foreign currency they were followed by recessions during which a sharp decline in credit especially hurt the n sector this paper presents a model that accounts for these stylized facts a crucial element is that we model a banking system that is simultaneously subject to two distortions typical of international credit markets bailout guarantees and the imperfect enforceability of contracts the interaction of these distortions produces unusually fast n sector growth together with a real appreciation during the boom however it is also responsible for self fulfilling twin crises which have persistent adverse effects on n sector output
