during the past decade there has been a series of radical changes to the educational system of england and wales this book argues that any serious study of these changes has to engage with complex questions about the role of education in a modern liberal democracy were these educational changes informed by the needs and aspirations of a democratic society to what extent will they promote democratic values and ideals these questions can only be adequately addressed by making explicit the political ideas and the underlying philosophical principles that have together shaped the english educational system to this end the book provides a selective history of english education which exposes the connections between decisive periods of educational change and the intellectual and political climate in which it occurred it also connects the educational policies of the 1980s and 90s to the political ideas of the new right in order to show how they are part of a broader political strategy aimed at reversing the democratic advances achieved through the intellectual and political struggles of the nineteenth and twentieth centuries the book proposes that a democratic educational vision can only effectively be advanced by renewing the struggle for democracy the historical struggle to create forms of education which will empower all citizens to participate in an open pluralistic and democratic society

democracy in africa by harry goulbourne

this book examines how the democratic form and the struggle for democracy reflects influences and shapes the struggle for social emancipation in the context of increased exploitation rising inequality and intensified struggle for social justice in the

aftermath of the economic crisis the channelling of populism through liberal democratic institutions has had contradictory effects giving rise to both corbyn and brexit sanders and trump syriza and the golden dawn to name but a few how can we make sense of these developments in response this book approaches the idea of democracy from a socialist constitutionalist standpoint and explores institutional forms and principles that challenge and aim at the transformation of the extant social order this process involves the challenging of well established ideas of the liberal viewpoint as well as an unwavering focus on the issue of class rule which enables the highlighting of limitations of not only mainstream but also heterodox contemporary approaches to constitutionalism and democracy ultimately democracy is conceived as a process of struggle for creating the conditions material as well as intellectual for its actualisation this significant work of legal and political theory will be of considerable interest to those working in these areas to make sense of contemporary developments and to further the causes of social justice and social emancipation

democracy a tantalizing myth a relentless scourge or a driving force in an ongoing and uncertain humanity project slogans and oversimplifications are for cranks pranksters bullies and tyrants democracy should never be overly romanticized to do so is to trivialize it for each of democracy s momentous victories there are countless minor setbacks and frequent catastrophic defeats so much of democracy s work is thankless tedious and frustrating and the idea of inevitable progress may be nothing other than a cruelly back slashing double edged myth democracy only thrives when it is scrutinized critically the price of freedom is still there is something in the human spirit that resists domination and exploitation the question is whether this something is stronger than the will to dominate and exploit and whether it is stronger than despair the enemies of democracy are many mostly they can be summed up in the impulse to dominate and exploit but democracy is also threatened by our own complacency and whatever tendency we have toward despair eternal vigilance democracy is the exercise of self control of a people over itself in one hopeful view democracy is a force working to advance human civilization it works both in tandem with and in opposition to the necessity to concentrate great wealth for purposes of investment and display it works both in tandem and in opposition to the necessity of countering irresponsible or abusive wealth and power the history of human civilization may be understood as a project by which our species is domesticating itself are we breeding ourselves to become a sullen servile

mass destined to be exploited by a tiny elite or are we painfully culturing self improving communities based on hope equality freedom and compassion and what can we do if anything to influence our crucial fate any answers lie not just in ourselves they are in our histories our cultures our potentials and our shared imaginings with all their terrors and hopes democracy and the rule of law are inseparable if often antagonistic collaborative forces in our cultural evolution wherever we are leading ourselves

revolutionaries counter revolutionaries and reformers the world over appeal to democracy to justify their actions but when political factions compete over the right to act in the people s name who is to decide although the problem is as old as the great revolutions of the seventeenth and eighteenth centuries events from the arab spring to secession referendums suggest that today it is hardly any closer to being solved this book defends a new theory of democratic legitimacy and change that provides an answer christopher meckstroth shows why familiar views that identify democracy with timeless principles or institutions fall into paradox when asked to make sense of democratic founding and change solving the problem he argues requires shifting focus to the historical conditions under which citizens work out what it will mean to govern themselves in a democratic way the only way of sorting out disputes without faith in progress is to show in socratic fashion that some parties claims to speak for the people cannot hold up even on their own terms meckstroth builds his argument on provocative and closely argued interpretations of plato kant and hegel suggesting that familiar views of them as foundationalist metaphysicians misunderstand their debt to a method of radical doubt pioneered by socrates recovering this tradition of antifoundational argument requires rethinking the place of german idealism in the history of political thought and opens new directions for contemporary democratic theory the historical and socratic theory of democracy the book defends makes possible an entirely new way of approaching struggles over contested notions of progress popular sovereignty political judgment and democratic change

the complete history of democracy

among the many facets noted since the launch of the Moon Jae-in administration presidential speeches have captured considerable public attention and won over hearts this compilation of selected speeches contains addresses and remarks made by President Moon at official events and major conferences that took place after he took office on May 10 2017 up to May 10 2018 during the year following his inauguration President Moon has engaged in vibrant communication with the public on 286 occasions through speeches at major events and remarks at closed meetings as well as open messages among these addresses and remarks 33 of particular interest to international media and foreign nationals have been selected translated into English and bound here the book reflects the President's commitment to communicating and sharing even more messages with the foreign press and international opinion leaders more actively beyond the language barrier the achievements of the Moon Jae-in administration over the past year were made possible thanks to the people's unwavering support and encouragement which

was facilitated by president moon's ceaseless efforts to communicate with them furthermore the international community's endorsement and interest is also vital to ensure that the president's management of state affairs and diplomatic initiatives reap greater success i hope that this collection of speeches provides you with a clear understanding of the moon jae in administration's first year i look forward to you grasping hands with the administration so that its objectives won't get lost in the remaining four years thank you very much july 2018 im jong seok chief of staff to the president

firmly rooting its argument in democratic and economic theory the book argues that a more democratic distribution of communicative power within the public sphere and a structure that provides safeguards against abuse of media power provide two of three primary arguments for ownership dispersal it also shows that dispersal is likely to result in more owners who will reasonably pursue socially valuable journalistic or creative objectives rather than a socially dysfunctional focus on the bottom line the middle chapters answer those agents including the federal communication commission who favor deregulation and who argue that existing or foreseeable ownership concentration is not a problem the final chapter evaluates the constitutionality and desirability of various policy responses to concentration including strict limits on media mergers
