the tao of philosophy is a literary adaptation of talks selected to introduce the new love of wisdom series by alan watts to today's audiences the following chapters provide rich examples of the way in which the philosophy of the tao is as contemporary today as it was when it flourished in china thousands of years ago perhaps most significantly these selections offer modern society a clearer understanding of what it will take for a successful reintegration of humans in nature

alan watts noted author and respected authority on far eastern thought studied taoism extensively and in his final years moved to a quiet cabin in the mountains and dedicated himself almost exclusively to meditating and writing on the tao this new book gives us an opportunity to not only understand the concept of the tao but to experience the tao as a personal practice of liberation from the limitations imposed by the common beliefs within our culture the philosophy of the tao offers a way to understand the value of ourselves as free willed individuals enfolded within the ever changing patterns of nature the path of the tao is perhaps the most puzzling way of liberation to come to us from the far east in the last century it is both practical and

esoteric and it has a surprisingly comfortable quality of thought that is often overlooked by western readers who never venture beyond the unfamiliar quality of the word tao pronounced dow but those who do soon discover a way of understanding and living with the world that has profound implications for us today in so called modern societies the word tao means the way in the sense of a path a way to go but it also means nature in the sense of one's true nature and the nature of the universe often described as the philosophy of nature we find the origins of taoism in the shamanic world of pre dynastic china living close to the earth one sees the wisdom of not interfering and letting things go their way it is the wisdom of swimming with the current splitting wood along the grain and seeking to understand human nature instead of changing it every creature finds its way according to the laws of nature and each of us has our own inner path or tao

in summary we may declare that lao tzu is an authentic philosopher and he uses a clear logic to describe his principle in the tao te ching tao philosophy deals with the nature of reality we come to such a conclusion despite the overwhelming belief to the contrary we no longer need to accept tao philosophy as a mysterious philosophy instead we have shown that there is a definite principle and a clear logic in the tao te ching the principle and logic can be shown with a systematic model based on the words of lao tzu the results are well beyond what we could have expected when we started this project more than a decade ago this work represents a major step in our understanding of tao philosophy this book shows the complete logical structure of tao philosophy which can serve as the ultimate base for a consistent interpretation of the tao te ching the logic of tao philosophy is precise and can be presented analytically

taoism is codified in the tao te ching which was written in the sixth century b c by the ancient sage lao tzu despite being history's second most translated book after the bible its eighty one poems have often been interpreted with confusing contradictory and sometimes blatantly incorrect explanations the essence of tao removes the mystery surrounding this important philosophy and religion by reordering the core poems of the tao te ching into a logical framework based on taoism's nine core principles and then explaining these principles in easy to understand language grand master anatole uses ancient and formerly secret keys to help unlock lao tzu's mysteries including taoism's famous paradoxes the essence of tao will help the reader get a clear view of reality in order to create a content existence additional information about grand master anatole and the temple of original simplicity can be found at tao.org
