brings together in one volume editions of all the plays poems and sonnets originally
published as individual paperbacks in the new american library s signet classic
shakespeare series with a general introduction by professor barnet introductions to the

individual plays by the contributing editors

this bibliography will give comprehensive coverage to published commentary in english on shakespeare and the classical tradition during the period from 1961 1985 doctoral dissertations will also be included each entry will provide a clear and detailed summary of an item s contents for pomes and plays based directly on classical sources like antony and cleopatra and the rape of lucrece virtually all significant scholarly work during the period covered will be annotated for other works such as hamlet any scholarship that deals with classical connotations will be annotated any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of shakespeare and the classics

most people are completely unaware that the shakespeare authorship question is the greatest cultural mystery in western civilization few realize that will shakspere of stratford on avon was an uneducated grain speculator and real estate investor who could not read or write yet he was chosen as the front man for a fraudulent conspiracy perpetrated by queen elizabeth s chief counselor robert cecil for reasons of monarchical succession greed and power the astonishing power of conventional wisdom has kept the ruse going perpetrated by professors of english who cannot break the tenacious shackles of their guild mythology and thus refuse to believe the reams of authoritative evidence discovered in the past century in favor of edward de vere 17th earl of oxford as shakespeare volume 10 of this anthology series monument contains eighteen brilliant compelling articles by highly qualified authorship experts who convincingly reinforce the case for edward de vere and annihilate the completely impossible candidacy of the illiterate stratford man judge philip howerton jr ba jd it doesn t take an academically based person to realize that the quarter page of known facts of william shakspere s life can be mastered by a twelve year old and that all the rest of the stuff that has been written in the attempt to connect his life and the works by professors brown chambers chute rowse schoenbaum et al ad nauseam is and always has been as vladimir nabokov once put it in another context thirty two percent nonsense and fifty of neutral padding scottish author josephine tey called it tonypandy a nonsensical untrue story grown to legend and accepted by the public in the face of all evidence to the contrary michael h hart ph d in astrophysics princeton author of the 100 a ranking of the most influential persons in history i made a serious error in

the first edition when without carefully checking the facts i simply followed the crowd and accepted the stratford man as the author of the shakespeare plays since then i have carefully examined the arguments on both sides of the question and have concluded that the weight of the evidence is heavily against the stratford man and in favor of de vere

surviving the future is a story drawn from the fertile ground of the late david fleming s extraordinary lean logic a dictionary for the future and how to survive it that hardback consists of four hundred and four interlinked dictionary entries inviting readers to choose their own path through its radical vision recognizing that lean logic s sheer size and unusual structure can be daunting fleming s long time collaborator shaun chamberlin has selected and edited one of these potential narratives to create surviving the future the content rare insights and uniquely enjoyable writing style remain fleming s but are presented here at a more accessible paperback length and in conventional read it front to back format the subtitle culture carnival and capital in the aftermath of the market economy hints at fleming s vision he believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges but he did not dwell on this we know what we need to do we need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow surviving the future lays out a compelling and powerfully different new economics for a post growth world one that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality but on the play humor conversation and reciprocal obligations of a rich culture building on a remarkable breadth of intellectual and cultural heritage from keynes to kumar homer to huxley mumford to macintyre scruton to shiva shakespeare to schumacher fleming describes a world in which as he says there will be time for music this is the world that many of us want to live in yet we are told it is idealistic and unrealistic with an evident mastery of both economic theory and historical precedent fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity with friendliness humor and charm surviving the future plucks this vision out of our daydreams and shows us how to make it real step into the world of david fleming you ll be so glad you did rob hopkins cofounder of the transition network

in culture of terror eugene narrett accomplishes a remarkable task defining and identifying the roots of postmodernism in the scientific utopianism of the enlightenment dr narrett explains and traces the increasing totalitarian core of this drive to control and perfect human beings to the media distraction machine using core texts from political philosophy and literature he follows the romantic revolution in values and scientific utopianism through modernism and its suicidal relativistic power mad postscript postmodernism using a broad palette of great writings from many disciplines he traces america s regression to nihilistic paganism directed by an oligarchy and a new hi tech feudalism that impoverishes and de humanizes in america the flower of the west the contradictions and self negation in this process are most pronounced and grotesque as shown by popular culture which he examines extensively culture of terror is a unique tale of imperial identity theft playing out its logic in confessions of regret expressive introspection psychology and the exhibitionism of media spectacles that absorb and program everything in the disintegrating language of its its distraction machine

lean logic is david fleming s masterpiece the product of more than thirty years work and a testament to the creative brilliance of one of britain s most important intellectuals a dictionary unlike any other it leads readers through fleming s stimulating exploration of fields as diverse as culture history science art logic ethics myth economics and anthropology being made up of four hundred and four engaging essay entries covering topics such as boredom community debt growth harmless lunatics land lean thinking nanotechnology play religion spirit trust and utopia the threads running through every entry are fleming s deft and original analysis of how our present market based economy is destroying the very foundations ecological economic and cultural on which it depends and his core focus a compelling grounded vision for a cohesive society that might weather the consequences a society that provides a satisfying culturally rich context for lives well lived in an economy not reliant on the impossible promise of eternal economic growth a society worth living in worth fighting for worth contributing to the beauty of the dictionary format is that it allows fleming to draw connections without detracting from his in depth exploration of each topic each entry carries intriguing links to other entries inviting the enchanted reader to break free of the imposed order of a conventional book starting where she will and

following the links in the order of her choosing in combination with Fleming's refreshing writing style and good natured humor it also creates a book perfectly suited to dipping in and out the decades Fleming spent honing his life's work are evident in the lightness and mastery with which Lean Logic draws on an incredible wealth of cultural and historical learning from Whitman to Whitefield Dickens to Daly Kropotkin to Kafka Keats to Kuhn Oakeshott to Ostrom Jung to Jensen Machiavelli to Mumford Mauss to Mandelbrot Leopold to Lakatos Polanyi to Putnam Nietzsche to Næss Keynes to Kumar Scruton to Shiva Thoreau to Toynbee Rabelais to Rogers Shakespeare to Schumacher Locke to Lovelock Homer to Homer Dixon in demonstrating that many of the principles it commends have a track record of success long pre dating our current society Fleming acknowledges with honesty the challenges ahead but rather than inducing despair Lean Logic is rare in its ability to inspire optimism in the creativity and intelligence of humans to nurse our ecology back to health to rediscover the importance of place and play of reciprocity and resilience and of community and culture recognizing that Lean Logic's sheer size and unusual structure could be daunting Fleming's long time collaborator Shaun Chamberlin has also selected and edited one of the potential pathways through the dictionary to create a second stand alone volume surviving the future culture carnival and capital in the aftermath of the market economy the content rare insights and uniquely enjoyable writing style remain Fleming's but presented at a more accessible paperback length and in conventional read it front to back format
