my book is a comedy and a social satire about how everyone starts out idealistically chomping at the bit to use their mind to the fullest a mind is a terrible thing to waste after all according to that old school traditional philosophy but after a while it sooner or later dawns on most everyone that what they are really doing is wasting their mind anyway not only because no

one ever listens but because nothing works the way it has been talked up its an up close and personal picture of how it feels when life throws you a curved ball or a lot of lemons from which you have to figure out how to make lemonade its an emotional snapshot of how traumatic it is when nothing works out the way you once thought it would when all those wonderful ideas and oh so compelling words and theories cease to make any sense but rather than offering the reader a roadmap it attempts to give an explanation for why nothing ever works and how it feels to spin your wheels when your back is to the wall and you're neck and neck with all those nasty infuriating unmentionables centering around all that social control along with the downside however there is an equal and opposite upside the world of songs and poetry is held up as a guiding principle through which to regain your spiritual balance gradually become unstuck and once again able to reboot yourself in a new direction its also much more than a blame yourself for everything and get out of your own way guilt trip since it rejects all those simplistic clich solutions found in psychology books attempting instead to give the reader a much more focused insight into all those hard to put into words political social and philosophical outside forces that affect why and how things can and do go wrong

chaos reigns when mother decides to go back to work and the children have to learn to cope

bad things always happen in threes if a very old person like grandmama says it is it not true this is the very normal understandable worry eight year old julia has when she has knocked a burning hot iron into her little sister's hand the first bad thing and surely two more must follow if grandmama says so what will they be when will they happen this is an enormous worry indeed although this gentle story about a family with three little girls takes place in russia at the turn of the twentieth century it has universal appeal as both family life and eight year old julia's fears and concerns are all so true and believable perhaps this is because they are true inspired by the real life experiences of the author's mother
