

The Three Body Problem 1 Liu Cixin

[illegible][illegible]

chinese and western literary influence in liu cixin s three body trilogy examines liu cixin s acclaimed trilogy a chinese science fiction epic whose translation is exceedingly popular in the western world will peyton argues that the ingenuity of liu s writing is found in its conscious engagement with translated western fiction rather than as one might expect in chinese language science fiction of the past the book illustrates how contemporary chinese fiction since the economic opening of china in the late 1980s is deeply and complexly influenced by various strains in western literary and intellectual thought an area that scholars of chinese literature have tended to neglect providing a lucid and succinct close reading and textual analysis of three body trilogy the book also makes reference to broader ideas and themes in modern chinese and western intellectual history

the collected stories of internationally acclaimed science fiction author cixin liu

read the award winning critically acclaimed multi million copy selling science fiction phenomenon now a major netflix original series from the creators of game of thrones 1967 ye wenjie witnesses red guards beat her father to death during china s cultural revolution this singular event will shape not only the rest of her life but also the future of mankind four decades later beijing police ask nanotech engineer wang miao to infiltrate a secretive cabal of scientists after a spate of inexplicable suicides wang s investigation will lead him to a mysterious online game and immerse him in a virtual world ruled by the intractable and unpredictable interaction of its three suns this is the three body problem and it is the key to everything the key to the scientists deaths the key to a conspiracy that spans light years and the key to the extinction level threat humanity now faces praise for the three body problem your next favourite sci fi novel wired immense barack obama unique george r r martin sf in the grand style guardian mind altering and immersive daily mail winner of the hugo and galaxy awards for best novel

winner 2023 sfra book award science fiction research association a new wave of cutting edge risk taking science fiction has energized twenty first century chinese literature these works capture the anticipation and anxieties of china s new era speaking to a future filled with uncertainties deeply entangled with the politics and culture of a changing china contemporary science fiction has also attracted a growing global readership fear of seeing traces the new wave s origin and development over the past three decades exploring the core concerns and literary strategies that make it so distinctive and vital mingwei song argues that recent chinese science fiction is united by a capacity to illuminate what had been invisible what society had chosen not to see what conventional literature had failed to represent its poetics of the invisible opens up new literary possibilities and inspires new ways of telling stories about china and the world reading the works of major writers such as liu cixin and han song as well as lesser known figures song explores how science fiction has spurred larger changes in contemporary literature and culture he analyzes key topics variations of utopia and dystopia cyborgs and the posthuman and nonbinary perspectives on gender and genre among many more a compelling and authoritative account of the politics and poetics of contemporary chinese science fiction fear of seeing is an important book for all readers interested in the genre s significance for twenty first century literature

the first in a new series of graphic novels from hugo award winning author liu cixin and talos press an annual ice sculpture festival draws the attention of an extraterrestrial visitor who learns how to create such art and decides to use local resources to

sculpt a piece in a gesture of goodwill all the water in the ocean is sent to the stratosphere where the ice sculptor uses splendid techniques to create crystal dominoes scattered by a giant of the cosmos in the world of the ice sculptor art is the sole reason for civilization's existence after the ice sculptor creates the pinnacle of beauty but also brings forth devastation and disaster humanity decides during earth's last breaths to fight for their survival the first of sixteen new graphic novels from liu cixin and talos press sea of dreams is an epic tale of the future that all science fiction fans will enjoy

this book explores the media and cultural exchanges between africa and china in the twenty first century against the backdrop of the rise of africa and china in global geopolitics it situates these cultural encounters in historical and contemporary contexts and through the critical lens of the global south it identifies a rising global south consciousness despite lingering historical entanglements and emotional ambivalences that continue to characterise africa china relations bringing together scholars from various disciplines and from different parts of the world this book examines a wide range of cultural expressions such as arts literature translated works traditional and digital media artefacts and services and film festivals it also interrogates emerging cultural interactions experiences and practices engendered by the increasingly digitalised information and communication technology infrastructure underpinning africa china connections and links in doing so the book contributes to a more nuanced understanding of africa china relations today and the concept of the global south
