in cry of wonder gerard w hughes author of god of surprises encourages readers to explore their own human experience the unique doorway opening each of us out into the mystery of our present existence in our time such attention to mystery is considered counter cultural and subversive of law and order the truth of this observation becomes very clear to us if we give attention to our own felt reactions to the events of our lives the purpose of this book is to focus our attention on this inner conflict because it can reveal to us a vision of the transformation into which we are all now being invited in all that we are experiencing in every moment of our existence

this monograph is a literary study of lycophron s alexandra whose obscurity a quality notorious already in antiquity has long hampered holistic approaches through a series of distinct but closely integrated literary studies of major aspects of the poem including its style its engagement with the traditions of epic and tragedy and its treatment of heroism and of the gods the book explores the way the alexandra reconfigures greek mythology in particular as it is presented in homeric epic and athenian tragedy in order to cast the romans and their restoration of trojan glory as the ultimate telos of history in this sense the poem emerges as an important intermediary between homeric epic and latin poetry particularly vergil s aeneid by rewriting specific features of the epic and tragic traditions the alexandra denies to greek heroes the glory that was the traditional compensation for their suffering while at the same time attributing to cassandra s trojan family honours framed in the traditional language of greek heroism in this sense the figure of cassandra a prophetess traditionally gifted with the power of foresight but denied credibility self reflexively serves as a vehicle for exploring the potentials and limitations of poetry

why does poetry continue to exist it does not deliver information to solve problems or assist in helping with problems facts have no usefulness for rhyming couplets we live our lives in comfort when we solve tangible problems effectively facts usually have some built into it reward system that is until we seek a closer communion with ourselves living in a world made to be separate from us it is a world where not seeking

of competitive advantages that emotional world within leads to being struck by some indefinable satisfaction to be trusted it brings approval for the arts in their many forms for me the most beautiful of them is poetry making words when read into sounds equal to the power of singing by using much the same rhythmic repeats but to be accomplished without need of voice or ears and to be more easily remembered ever after throughout a lifetime with the same emotional impact and sometimes more so as deeper understanding evolves with time

since the publication of my larger book the horse fair many letters have been received from teachers and their scholars telling of the pleasure derived from the reading of it and incidentally suggesting that much of its contents is directly in line with the courses of literary instruction pursued in our elementary schools this suggestion has led me to collect certain of the stories into a smaller volume especially adapted for use as a school reading book the eighteen stories in this volume have been chosen with a thought to their educative value as well as for the intrinsic charm of the original narratives which in various forms have delighted many generations of readers all have a literary interest connecting them with subjects with which every educated person is supposed to be familiar in the first four you will be introduced to the sun myths and season myths of the greeks and of our Norse ancestors following these the tale of song inspiring pegasus is presented in contrast with that of griffen the base imitation invented by the romancing poets of the middle ages then in the ship of the plains you may read of the mythical founding of athens and in the sketch that follows you may enjoy a brief glimpse of arabic imagery in the story of one of the most interesting episodes in the life of the prophet mohammed the story of the twin brethren will acquaint you with the thought of some of the old latin writers while the tale of rakush will give you a taste of persian literature as it is found in the great epic written by firdusi the romances of charlemagne and his peers are represented by the story of broiefort and his indomitable master and the world famous don quixote is introduced by his sorry but scarcely less famous steed rozinante

steiner depicts here the deep realities of the spiritual life of the greeks and the deeds of their gods as well as the eleusinian and dionysian mysteries he shows how the same living reality of the spiritual world can be reawakened today in a modern form through spiritual science due to the incarnation of christ at the time of the greek culture
