offers a philosophical history of bridges both literal bridges and their symbolic counterparts and the acts of cultural connection they embody always wrote philip larkin it is by bridges that we live bridges represent our aspirations to connect to soar across divides and it is the unfinished business of these aspirations that makes bridges such stirring sights especially when they are marvels of ingenuity a rich compendium of myths superstitions and literary and ideological figurations of bridges organizes a poetic and philosophical history of bridges into nine thematic clusters leaping in lucid prose between distant times and places thomas harrison questions why bridges are built and where they lead he probes links forged by religion between life s transience and eternity as well as the consolidating ties of music illustrated by the case of the blues he investigates bridges in poetry as flash points in war and the megabridges of our globalized world he illuminates real and symbolic crossings facing migrants each day and the affective connections that make persons and societies cohere in readings of literature film philosophy and art harrison engages in a profound reflection on how bridges form and transform cultural communities of bridges is a mesmerizing vertiginous tale of bridges both visible and invisible both lived and imagined

african philosophical adventures presents african philosophy as a convergence wherein what is african what is philosophy and what is an adventure enter an inter relational and reciprocal process each giving birth to the others philosophy whether african or non african is an open ended process there is no finality in what it says about itself or about the subject matter that it investigates john murungi uses this sense of philosophy to guide the chapters in this book the word adventure bears this sense of philosophy and the same time informs what is to be understood as african philosophy the singularity of african

philosophy as well as its link to other branches of philosophy is subject to adventure readers of this book who are themselves adventurers in the world of philosophy will benefit greatly for those who are not already so it will be an invitation to undertake such an adventure

william whewell is considered one of the most important nineteenth century british philosophers of science and a contributor to modern philosophical thought particularly regarding the problem of induction and the logic of discovery in this volume robert e butts offers selections from whewell s most important writings and analysis of counter claims to his philosophy

a guide to the press of the united kingdom and to the principal publications of europe australasia the far east gulf states and the u s a

a trolley is careering out of control up ahead are five workers on a spur to the right stands a lone individual you a bystander happen to be standing next to a switch that could divert the trolley which would save the five but sacrifice the one do you pull it or say you re watching from an overpass the only way to save the workers is to drop a heavy object in the trolley s path and you re standing next to a really fat man this ethical conundrum based on british philosopher philippa foot s 1967 thought experiment has inspired decades of lively argument around the world now thomas cathcart coauthor of the new york times bestseller plato and a platypus walk into a bar brings his sharp intelligence quirky humor and gift for popularizing serious ideas to the trolley problem framing the issue as a possible crime that is to be tried in the court of public opinion cathcart explores philosophy and ethics intuition and logic along the way he makes connections to the utilitarianism of jeremy bentham kant s limits of reason st thomas aquinas s fascinating principle of double effect and more read with an open mind this provocative book will challenge your deepest held notions of right and wrong would you divert the trolley kill one to save five would you throw the fat man off the bridge

the technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology in addition to dealing with the history of technical discovery and

change history of technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred
