this book comes from the internet browsing the i stumbled on philosophers cognitive scientists sociologists computer scientists even mathematicians saying original provocative things about mathematics and many of these people had probably never heard of each other so i have collected them here this way they can read each other s work i also bring back a few provocative oldies that deserve publicity the authors are philosophers mathematicians a cognitive scientist an anthropologist a computer scientist and a couple of sociologists among the mathematicians are two fields prize winners and two steele prize w ners none are historians i regret to say but there are two historically o ented articles these essays don t share any common program or ideology the standard for admission was nothing boring nothing trite nothing tr ial every essay is challenging thought provoking and original back in the 1970s when i started writing about mathematics instead of just doing mathematics i had to complain about the literature philosophy of science was already well into its modern

revival largely stimulated by the book of thomas kuhn but philosophy of mathematics still seemed to be mostly foundationist ping pong in the ancient style of rudolf carnap or willard van ormond quine the great exception was proofs and refutations by imre lakatos but that exciting book was still virtually unknown and unread by either mathematicians or philosophers i wrote an article entitled introducing imre lakatos in the mathematical intelligencer in 1978

milton h erickson m d is generally acknowledged to have been the world s leading practitioner of medical hypnosis his strategic therapy using hypnotic techniques with or without actually inducing trance allows him to get directly to the core of a problem and prescribe a course of action that can lead to rapid recovery this book provides a comprehensive look at dr erickson s theories in practice through a series of case studies covering the kinds of problems that are likely to occur at various stages of the human life cycle the results dr erickson achieves sometimes seem to border on the miraculous but they are brought about by a finely honed technique used by a wise intuitive highly trained psychiatrist hypnotist whose work is recognized as a major contribution to the field

what about the kids already there how do they do when a child with a challenging past joins a family by adoption when experienced parents decide to adopt an older child or a sibling group they jump through all kinds of bureaucratic hoops â background checks interviews group meetings reading assignments classes etc but most often the typically developing children these adults are already parenting whether through birth or adoption are left out of the process informed that a new kid is coming and simply expected to â adjustâ to the addition of another sibling the addition of a child with a history of neglect or trauma cannot be a seamless transition the expectations of everyone involved â parents new siblings and yes professionals facilitating the adoption â must be realistic taking into account that the new child will need special attention that may take away time and attention from the already resident kids that family life is likely to be turned topsy turvy until appropriate counseling and support are in place that relationships will change therapist arleta james is certainly not the first person to recognize this but she is the first to do something about it brothers and sisters in adoption offers insights and examples and sturdy practical proven tools for helping newly configured families prepare accept react and mobilize to become a new and different family meeting the practical physical and emotional needs of all its members these well prepared and supported families are the ones who thrive
