from the bestselling author of *seth speaks* and the nature of personal reality in this mind stretching journey into the very frontiers of consciousness *seth* reveals the multidimensional nature of the human soul in *seth speaks* *seth* introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self now in this first volume of the unknown reality *seth* explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know in a fascinating exploration of the cosmic web of our existence *seth* reveals the purpose of dreams and how they are often fulfilled unconsciously misconceptions about death and the afterlife how different probable realities intersect and influence one another the relationship between physical health and inner reality a series of exercises to help you discover the unknown portions of your greater identity the self is multidimensional when it is physically alive it is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus when you don't realize this then you project upon life after death all of the old misconceptions the fact is that in life you poise delicately and yet perfectly between realities and after death you do the same *jane roberts speaking for seth*

from the bestselling author of *seth speaks* in this second volume of the unknown reality *seth* radically expands our conceptions of self by showing us that the human personality is literally infinite in its

scope and potential he discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence in a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice with humor and simple analogies seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including consciousness units as the basis of our universe the relevance of extrasensory perception in understanding our world the worlds we visit in dreams and out of body states dreaming as a science to create present and future realities families of consciousness we choose to belong to practical methods for exploring your own unknown reality there is an unknown reality i am part of it and so are you each individual is a part of the unknown reality to explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones i hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche s greater magic jane roberts speaking for seth

an exploration into consciousness the universe and the nature of reality draws on transdimensional physics and biology reincarnation and past life memories animal consciousness multiple identities thoughtforms soul pictures and paranormal phenomena like crop circles and poltergeists explores the riddle of personal identity and how it differs from consciousness reveals that consciousness is more than encompassing all that exists it also speaks to what has yet to manifest scientific orthodoxy views the universe as conceived of matter protons neutrons electrons down to the smallest particle quarks but when you keep digging what is beneath quarks the scientific worldview does not take into account consciousness or life itself how did consciousness become part of the material universe is it a by product of brain chemistry or a constituent of reality or to dig deeper which is more fundamental the existence of an objective physical universe or our subjective experience of it in this investigation into consciousness the universe and the nature of reality richard grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter he presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts he then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like ufos faeries and poltergeists he also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics examining nonlocal and transpersonal modes of consciousness grossinger looks at the difference between consciousness and personal identity he expands this discussion with reflections on sethian cosmology using seth s own words and jane roberts s and john friedlander s interpretations he reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency

in her riveting book barton vividly depicts her voyage of discovery through time and space her first spontaneous out of body experience so shattered her beliefs about reality that she began a thorough investigation that would ultimately lead her to learn to leave her body virtually at will thirty years later she is finally prepared to reveal what she learned in her trial by fire

frontiers of knowledge is the story of unfolding developments that are revolutionizing our understanding of ourselves and our place in the universe we are birthing a new era in which our ideas about the nature and source of reality are swiftly changing insights from quantum physics suggest that the basis of our physical world is actually mental conscious thoughts other discoveries are causing us to redefine our concepts of mind and the elusive thing we call consciousness all strongly hint that spirituality is the underlying source of everything frontier scientists and scientifically trained researchers are providing us with a rich and expanding base of knowledge through systematic investigations of startling phenomena that have been observed in quantum physics cosmology biology psychology disease and healing death near death experiences reincarnation experiences and those occurring in spiritual hypnosis on the nature of the spiritual realm new concepts of reality are especially needed to explain the incredibly finetuned characteristics and the mysterious nature of our physical universe ninety five percent of the universe s energy and mass are a mystery to scientists and for the moment we resort to naming them dark matter and dark energy the last time a comparable knowledge revolution occurred was in the late sixteenth century when astronomers determined that the planets revolved around the sun not the earth historians call it the copernican revolution because it led to modern western science from one perspective the new era predicted in this book a revolution in its own right can be considered the completion of the quantum revolution by defining and explaining the role of consciousness in our universe an underlying aspect of this new revolution is the sense that humanity is moving into a new era of rapidly expanding knowledge of the human spirit our soul aspect and non physical realities until now this emerging knowledge has not been organized into a coherent and comprehensive structure frontiers of knowledge provides the first outline of this new structure of reality

acorns delineates the future of humanity as a reunification of intellect with the deep self having chosen to focus upon ego established securely by the time of christ much more beta brain wave development will destroy our species and others which process has already begun we create our own realities through beliefs intents and desires and we were in and out of probabilities constantly feelings follow beliefs not the other way around
