a lucid thought provoking account of the case for nature as a determinant of personality peter d kramer author of listening to prozac and should you leave nowhere is the nature nature controversy being more arduously tested than in the labs of world renowned molecular scientist dean hamer whose cutting edge research has indisputably linked specific genes to behavioral traits such as anxiety thrill seeking and homosexuality the culmination of that research os this provocative book living with our genes in it dr hamer reveals that much of our behavior how much we eat and weigh whether we drink or use drugs how often we have sex is heavily influenced by genes his findings help explain why one brother becomes a wall street trader while his sibling remains content as a librarian or why some people like to bungee jump while others prefer scrabble dr hamer also sheds light on some of the most compelling and vexing aspects of personality such as shyness aggression depression and intelligence in the tradition of the bestselling book listening to prozac living with our genes is the first comprehensive investigation of the crucial link between our dna and our behavior compulsive reading reminiscent of jared diamond froma scientisit who knows his stuff and communicates it well kirkus reviews a pioneer in the field of molecular psychology hamer is exploring the role genes play in governing the very core of our individuality accessible provocative time absolutely terrific i couldn't put it down professor robert plomin social genetic developmental psychiatry research center institute of psychiatry

a clear and engaging explanation of one of the hottest fields in science steven pinker a hugely important book matt ridley the times one of the world's top behavioural geneticists argues that we need a radical rethink about what makes us who we are the blueprint for our individuality lies in the 1 of dna that differs between people our intellectual capacity our introversion or extraversion our vulnerability to mental illness even whether we are a morning person all of these aspects of our personality are profoundly shaped by our inherited dna differences in blueprint robert plomin a pioneer in the field of behavioural genetics draws on a lifetime's worth of research to make the case

that dna is the most important factor shaping who we are our families schools and the environment around us are important but they are not as influential as our genes this is why he argues teachers and parents should accept children for who they are rather than trying to mould them in certain directions even the environments we choose and the signal events that impact our lives from divorce to addiction are influenced by our genetic predispositions now thanks to the dna revolution it is becoming possible to predict who we will become at birth from our dna alone as plomin shows us these developments have sweeping implications for how we think about parenting education and social mobility a game changing book by a leader in the field blueprint shows how the dna present in the single cell with which we all begin our lives can impact our behaviour as adults

this three volume overview and summary of research data on a wide variety of sexual topics attempts to review what is known about human sexuality and how we know it

recognized in its first edition as the only textbook to present a truly biopsychosocial approach barlow and durand s groundbreaking text is rapidly becoming the standard by which other texts are judged in this second edition david barlow and v mark durand offer a consistent organizational structure that makes the material easy to learn fascinating real life cases integrated into the flow of each chapter a mix of clinical and scientific approaches a conversational writing style and a variety of new built in study aids designed to make the second edition easy to learn from and easy to use throughout the second edition the authors class tested integrative approach helps students understand how each disorder is determined by multiple forces biological psychological cultural social familial and environmental
