a reading of sartre s later works charting his transformation from existentialist to committed marxist defender

examines literary philosophical and cultural influences on mahler s thought and work from the standpoint of the composer s position in german jewish culture gustav mahler s music is more popular than ever yet few are aware of its roots in german literary and cultural history in general and in fin de siècle viennese culture in particular taking as its point of departure the many references to literature philosophy and the visual arts that mahler uses to illustrate the meaning of his music reading mahler helps audiences critics and those interested in musical and cultural history understand influences on mahler s music and thinking that may have been self evident to middle class viennese a hundred years ago but are much more obscure today it shows that mahler s oeuvre despite its reliance on texts and images from the eighteenth and nineteenth centuries is far more indebted to fin de siècle modernism and to an eclectic proto avantgardist agenda than has been previously realized furthermore reading mahler is the first book to make mahler s position within german jewish culture its analytical center it also probes mahler s problematic but often overlooked relationship with the musical and textual legacy of richard wagner by integrating newer approaches in humanistic research cultural studies gender studies and jewish studies reading mahler exposes the composer s critical view of german cultural history and offers a new understanding of his music carl niekerk is professor in the department of german the program in comparative and world literature and the program in jewish culture and society at the university of illinois at urbana champaign

dale dorsey considers one of the most fundamental questions in philosophical ethics to what extent do the demands of morality have normative authority over us and our lives must we conform to moral requirements most who have addressed this question have treated the normative significance of morality as simply a fact to be explained but dorsey argues that this traditional assumption is misguided according to dorsey not only are we not required to conform to moral demands conforming to morality s demands will not always even be normatively

permissible moral behavior can be quite literally wrong this view is significant not only for understanding the content and force of the moral point of view but also for understanding the basic elements of how one ought to live

this book offers an analysis of humor comedy and laughter as philosophical topics in the 19th century it traces the introduction of humor as a new aesthetic category inspired by laurence Sterne's *Tristram Shandy* and shows Sterne's deep influence on German aesthetic theorists of this period through differentiating humor from comedy the book suggests important distinctions within the aesthetic philosophies of G. W. F. Hegel, Karl Solger, and Jean Paul Richter the book links Kant's underdeveloped incongruity theory of laughter to Schopenhauer's more complete account and identifies humor's place in the pessimistic philosophy of Julius Bahnsen it considers how caricature functioned at the intersection of politics aesthetics and ethics in Karl Rosenkranz's work and how Kierkegaard and Nietzsche made humor central not only to their philosophical content but also to its style the book concludes with an explication of French philosopher Henri Bergson's claim that laughter is a response to mechanical inelasticity

this study explores the increasingly troubled relationship between humankind and the earth with the help of a simple example and a complicated interlocutor the example is a pond which it turns out is not so simple as it seems the interlocutor is Jean Paul Sartre novelist playwright biographer philosopher and despite his several disavowals doyen of twentieth century existentialism standing with the great humanist at the edge of the pond the author examines contemporary experience in the light of several familiar conceptual pairs nature and culture fact and value reality and imagination human and nonhuman society and ecology earth and world the theoretical challenge is to reveal the critical complementarity and experiential unity of this family of ideas the practical task is to discern the heuristic implications of this lived unity in diversity in these times of social and ecological crisis interdisciplinary in its aspirations the study draws upon recent developments in biology and ecology complexity science and systems theory ecological and Marxist economics and environmental history comprehensive in its engagement of Sartre's oeuvre the study builds upon his best known existentialist writings and also his critique of colonialism voluminous ethical writings early studies of the imaginary and mature dialectical

philosophy in addition to overviews of sartre s distinctive inflections of phenomenology and dialectics and his unique theories of praxis and imagination the study also articulates for the first time sartre s incipient philosophical ecology in keeping with sartre s lifelong commitment to freedom and liberation the study concludes with a programmatic look at the relative merits of pragmatist prefigurative and revolutionary activism within the burgeoning global struggle for social and ecological justice we learn much by thinking with sartre at the water s edge surprising lessons about our changing humanity and how we have come to where we are timely lessons about the shifting relation between us and the broader community of life to which we belong difficult lessons about our brutal degradation of the planetary system upon which life depends and auspicious lessons too about a participatory path forward as we work to preserve a habitable planet and build a livable world for all earthlings

with the modern value theory as basis the point of discussion is aristotelian thomistic

a weekly review of politics literature theology and art
