Martha Banta's *Henry James: An Alien's History of America* is the product of a lifetime of thinking about James and his odd but oddly productive relation to the land of his birth. A biography of an autobiography, it serves as a peripatetic history of the central cross currents and intersections between Europe and America: memory and history, romance and realism. These diverse elements structure James's channeling of his own experience as a displaced or alienated American into a variety of genres: memoirs and travel writing, novels and tales, letters and literary criticism, social and cultural commentary. Together they constitute the never-completed novel of his ongoing autobiographical project. In its masterful weaving together of materials, text and time frames, *Henry James: An Alien's History of America* moves fluidly back and forth over the intricate tapestry of James's life and texts. It identifies and analyzes key moments, words and tropes that echo across the years, tracing the instances of repetition, reversal, self-revelation and re-vision that underwrite this life record. This study represents a major advance over conventional, sometimes oversimplified readings of James's international theme. His attitudes about both Europe and America emerge here in their full complexity and contradictoriness. The breadth and depth of Banta's knowledge of James and of the historical America from which he emerged and which he never ceased to engage, however ambivalently, will make this a rich reading experience for general readers as well as scholars. David McWhirter, editor of *Henry James's New York Edition: The Construction of Authorship and Henry James in Context*.

This work examines the lives of four female characters in the Bible: Naomi, Ruth, Tamar, and Esther. Their stories differ significantly from those of most female biblical characters in that each woman is depicted without a dominant male companion, and each is featured in the Bible's more secular texts. The author evaluates each character's role as a female protagonist and demonstrates how each story represents an innovative view of religion and a revisionist evaluation of women's roles. Finally, the author proposes that these narratives may have been authored by women. Appendices provide additional information about Boaz, Judah, and Tamar; Greek versions of the Book of Esther; Mordecai's decree; and literacy in ancient Israel. Includes a glossary and
