this book is an introduction to the war machine of new kingdom egypt from c 1575 bc 1100 bc focuses on the period in which the egyptians created a professional army and gained control of syria creating an empire of asia written by a respected egyptologist highlights new technological developments such as the use of chariots and siege technology considers the socio political aspects of warfare particularly the rise to power of a new group of men evaluates the military effectiveness of the egyptian state looking at the logistics of warfare during this period incorporates maps and photographs a chronological table and a chart of dynasties and pharaohs

this new and completely revised edition of the ancient egyptians traces the origins of the egyptian civilization through the rise and fall of the old kingdom in light of contemporary theories and the many recent discoveries made in the field of egyptology two main themes are explored in order to explain the particular success of the old kingdom that ancestor worship lay at the root of ancient egyptian religious beliefs and that carefully established cult centers created both a common religious and cultural tradition and a reciprocal service relationship between the central government and distant communities

recent research on all aspects of the old kingdom in egypt is presented in this volume ranging through the pyramid texts tomb architecture ceramics scene choice and layout field reports cemetery layout tomb and temple statuary the contributions also show how egyptology is not stuck in its venerable traditions but that newer forms of technology are being used to great effect by egyptologists for example two papers show how gis technology can shed light on cemetery arrangement and how 3d scanners can be employed in the process of producing facsimile drawings of reliefs and inscriptions the authors cover a wide range of sites and monuments a large part of the work presented

deals with material from the great cemeteries of saqqara and giza of the old kingdom capital city of memphis but all the smaller sites are discussed the book also includes a paper on the architecture of mastabas from the lesser known site of abu roasch the provinces are by no means overlooked with articles on material from deir el bersha el sheikh said and akhmim between them the authors discuss material from the milieu of the king right down to that which concerned the tomb workmen and those who supplied their basic needs such as bakers brewers and potters containing papers presented at a conference at the fitzwilliam museum cambridge in may 2009 this book continues a series of publications of the latest research presented at previous meetings in paris berlin and prague much new material is published here and the papers are fully illustrated with over 200 photographs and drawings

this book identifies for the first time since antiquity the sources and meanings of more than 50 ancient egyptian symbols including the eye of horus evil god seth and his strange head 10 major crowns and the symbolic foundations of osirian mythology backbone of ancient egyptian religion for more than 2000 years these are paradigm changing discoveries most of them are based on detailed examinations of living examples of ancient egypt's two sacred flowers the blue and the white waterlilies and on resurrection texts found in ancient egyptian tombs more than 300 detailed illustrations beautifully presented make these discoveries easy to understand and appreciate the book is organized for the general reader and scholar alike andrew weil made remarkable discoveries that once seen are completely obvious a revelatory work carol andrews egyptologist author of amulets of ancient egypt at the british museum for 27 years this truly remarkable publication challenges the world of egyptology to reassess long held and clearly incorrect theories about the origin and meaning of so many symbols and representational forms which are fundamental to our understanding of ancient egypt

a volume of essays designed to accompany the catalogue of the same title it aims to place the achievements of american egyptologists into a broader context with essays on 10 successive periods of egyptian and nubian cultural history from the pre dynastic era to roman times

includes pictures includes ancient accounts of the new kingdom includes online resources and a bibliography for further reading africa may have given rise to the first human beings and egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later from the library and lighthouse of alexandria to the great pyramid at giza the ancient egyptians produced several wonders of the world revolutionized architecture and construction created some of the world's first systems of mathematics and medicine and established language and art that spread across the known world with world famous leaders like king tut and cleopatra it's no wonder that today's world has so many egyptologists what makes the accomplishments of the ancient egyptians all the more remarkable is that egypt was historically a place of great political turbulence its position made it both valuable and vulnerable to tribes across the mediterranean and the middle east and ancient egypt had no shortage of its own internecine warfare its most famous conquerors would come from europe with alexander the great laying the groundwork for the hellenic ptolemy line and the romans extinguishing that line after defeating cleopatra and driving her to suicide among all the periods in ancient egyptian history the new kingdom ca 1550 1050 bcee is perhaps the best known among non specialists and egyptologists alike the reasons for wide ranging modern knowledge of the new kingdom

are many and include a wealth of extant written materials several well preserved temples and numerous larger than life kings and other personalities in terms of literature the new kingdom not only boasts the most extant texts that have been translated and studied by modern scholars but also a number of texts originally produced during earlier periods of egyptian history that were copied during the new kingdom the texts span several genres including religion historiography bureaucracy and diplomacy which have all helped egyptologists reconstruct the chronology religious practices and daily lives of egyptians during the new kingdom many of the texts were inscribed on the walls of some of egypt s greatest temples such as medinet habu luxor and most impressive of all karnak the abundance of literature written and temples constructed during the new kingdom was the direct result of egypt s growing influence in the near east during the late bronze age by the time of egypt s nineteenth dynasty the egyptians had created a vast empire that stretched from what would be the modern region of northern sudan in the south to southern syria in the north kuhrt 2010 1 185 with control of such a vast empire the egyptians were able to export valuable minerals such as gold and silver which were much rarer in the other near eastern kingdoms and imported horses timber and chariots that they used to build their impressive military a chronological examination of ancient egypt during the new kingdom reveals the process in which egypt transitioned from a regional kingdom to an international empire the examination will demonstrate that the new kingdom was a fairly complex system that brought about several changes in pharaonic culture before ultimately collapsing the new kingdom of ancient egypt the history and legacy of the egyptian empire at the peak of its power chronicles the tumultuous history of egypt late in the second millennium bce along with pictures depicting important people places and events you will learn about the new kingdom like never before
