book jacket back the setting of jean genet s celebrated play is a brothel that caters to refined sensibilities and peculiar tastes here men from all walks of life don the garb of their fantasies and act them out a man from the gas company wears the robe and mitre of a bishop another customer becomes a flagellant judge and still another a victorious general while a bank clerk defiles the virgin mary these costumed diversions take place while outside a revolution rages which has

isolated the brothel from the rest of the rebel controlled city in a stunning series of macabre climactic scenes genet presents his caustic view of man and society

this book describes the repertoire and uses of referring expressions by french speaking children and their interlocutors in naturally occurring dialogues at home and at school in a wide range of communicative situations and activities through the lens of an interactionist and dialogical perspective it highlights the interaction between the formal aspects of the acquisition of grammatical morphemes the discourse pragmatic dimension and socio discursive interactional and dialogical factors drawing on this multidimensional theoretical and methodological framework the first part of the book deals with the relation between reference and grammar while the second part is devoted to the role of the communicative experience progressively a set of arguments is brought out in favor of a dialogical and interactionist account of children s referential development this theoretical stance is further discussed in relation to other approaches of reference acquisition thus this volume provides researchers and students with new perspectives and methods for the study of referring expressions in children

poetic revolutionaries is an exploration of the relationship between radical textual practice social critique and subversion from an introduction considering recent debates regarding the cultural politics of intertextuality allied to avant garde practice the study proceeds to an exploration of texts by a range of writers for whom formal and poetic experimentation is allied to a subversive politics jean genet monique wittig angela carter kathy acker kathleen mary fallon kim scott and brian castro drawing on theories of avant garde practice intertextuality parody representation and performance such as those of mikha I bakhtin julia kristeva gérard genette margaret a rose linda hutchinson fredric jameson ross chambers and judith butler these readings explore how a confluence of writing strategies covering the structural narratological stylistic and scenographic can work to boost a text s subversive power

surprisingly there are few book length studies available that approach the poems in charles baudelaire s collection on an individual basis understanding les fleurs du mal fills this gap by providing students and serious readers with clear scholarly explications to many of the most widely read of baudelaire s poems

in this book gene a plunka argues that the most important single element that solidifies all of genet s work is the concept of metamorphosis genet s plays and prose demonstrate the transition from game playing to the establishment of one s identity through a state of risk taking that develops from solitude however risk taking per se is not as important as the rite of passage anthropologist victor turner s work in ethnography is used as a focal point for the examination of rites of passage in genet s dramas rejecting society genet has allied himself with peripheral groups marginal men and outcasts scapegoats who lack power in society

much of their effort is spent in revolt or direct opposition in mainstream society that sees them as objects to be abused as an outcast or marginal man genet solved his problem of identity through artistic creation and metamorphosis likewise genet s protagonists are outcasts searching for positive value in a society over which they have no control they always appear to be the victims or scapegoats as outcasts genet s protagonists establish their identities by first willing their actions and being proud to do so unfortunately man s sense of being is constantly undermined by society and the way individuals react to roles norms and values roles are the products of carefully defined and codified years of positively sanctioned institutional behavior according to genet role playing limits individual freedom stifles creativity and impedes differentiation genet equates role playing with stagnant bourgeois society that imitates rather than invents the latter is a word genet often uses to urge his protagonists into a state of productive metamorphosis imitation versus invention is the underlying dialectic between bourgeois society and outcasts that is omnipresent in virtually all of genet s works faced with rejection poverty oppression and degradation genet s outcasts often escape their horrible predicaments by living in a world of illusion that consists of ceremony game playing narcissism sexual and secret rites or political charades like children genet s ostracized individuals play games to imitate a world that they can not enter essentially the play acting becomes catharsis for an oppressed group that is otherwise confined to the lower stratum of society role players and outcasts who try to find an identity through cathartic game playing never realize their potential in genet s world instead genet is interested in outcasts who immerse themselves in solitude and create their own sense of dignity free from external control most important these isolated individuals may initially play games yet they ultimately experience metamorphosis from a world of rites charades and rituals to a type of sainthood where dignity and nobility reign the apotheosis is achieved through a distinct act of conscious revolt designed to condemn the risk taker to a degraded life of solitude totally distinct from society s norms and values book jacket
