colin gunton was world renowned as a scholar systematic theologian and reformed minister however he never lived to fulfill his ambition to write a book devoted solely to barth gunton on barth is an in depth analysis derived from the lecture course he gave most years at king s college london something of an annual institution it was aimed at undergraduates though the majority of those attending were ma phd students and researchers from america and germany approximately half of the work consists of quotations representing an essential understanding colin was a creative lecturer although he worked from notes he gave space to the free rein of his mind particularly when fielding questions or trying to analyze a particular strand of barth s thought colin s understanding and expertise was world renowned he did not take all barth wrote uncritically he struggled and wrestled with this giant of twentieth century theology as he always said at the beginning of the course not everyone buys into barth i don t all the way along the line as i get older i get more and more dissatisfied with the details of his working out of the faith over the years i think i have developed a reasonable view of this great man who is thoroughly exciting and particularly i can guarantee if you do this course that you will be a better theologian by the third year whether or not you agree with him he is a great man to learn to think theologically with

karl barth was the most influential theologian of the twentieth century and his work continues to inspire both fresh theological thinking and critical debate the period covered by the volumes in this series 1905 to 1933 saw barth emerge from his training under such theological giants as adolph von harnack and wilhelm herrmann assert his rejection of

liberal protestant theology in his towering commentary on romans and work through an earlier uncertainty to become a critic on theological grounds of the rise of nazism these volumes contain essays lectures academic papers correspondences editorials and other writings that were not previously translated into english and that provide insight into the development of barth s theology during this crucial period of his life

karl barth was the most influential theologian of the twentieth century and his work continues to inspire both fresh theological thinking and critical debate the period covered by the volumes in this series 1905 to 1933 saw barth emerge from his training under such theological giants as adolph von harnack and wilhelm herrmann assert his rejection of liberal protestant theology in his towering commentary on romans and work through an earlier uncertainty to become a critic on theological grounds of the rise of nazism these volumes contain essays lectures academic papers correspondences editorials and other writings that were not previously translated into english and that provide insight into the development of barth s theology during this crucial period of his life

volume 2 of these previously untranslated to english works covers the period in barth s career when he served as a pastor first in geneva and then in safenwil and up through the point where his theology takes a decisive turn in response to the outbreak of the first world war

through his single minded insistence on the priority of the bible in the life of the church karl barth 1886 1968 decisively shaped the course of twentieth century christian theology drawing on both familiar texts and recently published archival material barth s theology of interpretation sheds new light on barth s account of just what it is that scripture gives and requires in tracing the movement of barth s earlier thinking about scriptural reading the book also raises important questions about the ways in which barth can continue to

influence contemporary discussions about the theological interpretation of scripture

the academic disciplines of biblical studies and systematic theology were long closely linked to one another however in the modern period they became gradually separated which led to increasing subject specialization but also to a lamentable lacuna within the various branches of divinity as the lack of dialogue between biblical studies and the various theological disciplines increased a minority group of scholars in the past few decades reacted and sought to re establish the time honoured bonds between the disciplines the present volume is part of this intellectual response with contributions from scholars of various professional and denominational backgrounds together the book's 25 chapters seek to reinvigorate the crucial cross disciplinary dialogue involving biblical narrative historical systematic theological and philosophic theological perspectives the book opens the horizon to contemporary research and fills a lamentable research gap with a number of fresh contributions from scholars in the respective sub disciplines

robert w jenson 1930 2017 is america's most important theologian he thinks jesus of nazareth is always and for ever one of the trinity mary's boy and pilate's victim is the father's eternal son so there has never been an unfleshed word the god of the gospel is much stranger than we have imagined in jesus in the trinity lincoln harvey offers a penetrating guide into jenson's remarkable proposal demonstrating jenson's signature moves as well as his fundamental re working of the dogmatic tradition harvey shows how an evangelized metaphysics can make sense of the identity of jesus christ with time space causation and god's act of creation utterly re imagined through the course of these pages reality will look very different in light of jenson's startling theology

the t t clark handbook of colin gunton is a theological companion to the study of gunton's theology and a resource for thinking about gunton's importance in modern theology each

of the essays brings gunton's depth to a broad range of contemporary theological concerns the volume unveils cutting edge gunton scholarship for a new generation and at the same time enables readers to see the timely significance of gunton today each of the essays not only introduces readers to key themes in the gunton corpus but also provides readers with fresh interpretations that are fully conversant with the contemporary theological problems facing the church designed as both a guide for students and a reference point for scholars the companion seeks both to outline the frameworks of key gunton debates while at all times pushing forward fresh interpretative strategies concerning his thought

a volume of essays that celebrate and pay tribute to the enormous contribution to scriptural studies that henry wansbrough has made over the last 50 years

dietrich bonhoeffer was just thirty nine years old when he was executed by the nazis in 1945 yet his influence on christian theology and life has been enormous a testament to freedom takes readers along a biographical historical journey that follows bonhoeffer through the various stages of his life and career including his final years in the underground resistance against the nazi government and his subsequent martyrdom this book features previously untranslated writings sermons and selections from his letters spanning his entire pastoral theological career including his prison letters

john and donald baillie were twentieth century scots theologians whose influence extended widely around the world this is an intellectual biography of the brothers based on a large collection of papers diaries and letters which has recently become available it is both a study in the interaction of theology and culture and an argument for the development of a new critical liberal theology the baillie papers show theology being shaped by language and culture in a transatlantic interchange the brothers and their social circles played a

central role in european and american ecumenical church and social life in the critical decades before and after the 1939 45 war their work remains an important resource for an open and inclusive theology john baillie taught in the united states and canada from 1919 to 1934 before returning to scotland he came back to america most years until 1959 he was one of the first presidents of the world council of churches donald baillie professor in st andrews was the author of god was in christ perhaps the most widely read essay in twentieth century christology

john yocum argues that barth s late rejection of the concept of sacrament subverts important elements of his own earlier theology especially the mediation of divine grace in preaching and the bible
