was the John Foster Dulles who personified the cold war as US Secretary of State in the 1950s the same man who denounced narrow nationalism as a leader of worldwide ecumenism and liberal protestantism in the 1930s in this remarkable study Mark Toulouse documents the transformation of Dulles from

prophet of realism to priest of nationalism overturning misconceptions of those historians who have tended to read dulles's early years backward from what they know of him as secretary of state. Christian missions and international diplomacy shaped John Foster Dulles from childhood. His father was a liberal Presbyterian minister; one grandfather had been a missionary to India while the other had served as U.S. secretary of state under Benjamin Harrison and an uncle would serve Woodrow Wilson in the same office as a Princeton undergraduate. Dulles accompanied his grandfather to an International Peace Conference at the Hague in 1907 where he became a secretary to the Chinese delegation. That experience and a year at the Sorbonne pointed Dulles toward international law rather than the ministry, but he remained an active ecumenically minded Presbyterian lay leader serving in several important denominational posts. He successfully defended the controversial Harry Emerson Fosdick and Henry P. Van Dusen before the Presbyterian General Assembly when fundamentalists attempted to depose them in 1921. Dulles was appointed to the newly formed Commission on International Justice and Goodwill of the Federal Council of Churches. Dulles emerged as an international leader in 1937 at the Ecumenical Oxford Conference on Life and Work, convinced in his discussions there of the need to translate his inherited spiritual values into practical international diplomacy. Dulles organized and became chairman of the Federal Council's Commission to Study the Bases of a Just and Durable Peace through the Years of World War and as a participant in the United Nations Conference in 1945. Dulles sought a peace that would transcend the narrow concerns of nationalism and political ideology but after 1945 as Professor Toulous shows, the prophetic realism that had guided Dulles's ecumenical quest for world peace and justice became a priestly nationalism that uncompromisingly pursued the international political aims of the United States in the name of a supreme moral law. Toulous's incisive analysis of that transformation is a compelling reading for scholars of international diplomacy and American religion and for every person who seeks to reconcile the imperatives of religion with the necessities of statecraft.

John Foster Dulles was one of the most influential and controversial figures in the history of twentieth-century U.S. foreign relations. Active in the field for decades, Dulles reflected and was a reflection of the tension that pervaded U.S. international conduct from its evolution as a global power in the early twentieth century through its emergence as the leader of the free world during the Cold War. His life and career embody the best and most troubling aspects of American foreign policy as it progressed toward international supremacy while swaying between altruism and self-interest. In this biography, Richard Immerman traces Dulles's path from his early days growing up in the parsonage of the First Presbyterian Church of Watertown, N.Y., through his years of amassing influence and power as an international business lawyer and adviser to his service as President Eisenhower's secretary of state. This volume illuminates not only the history of modern U.S. foreign policy but its search for a twentieth-century identity. Sophisticated yet accessible, John Foster Dulles: Piety, Pragmatism, and Power in U.S. Foreign Policy is an important resource for graduate and undergraduate courses in U.S. history and U.S. foreign relations.
