the civil war dead and american modernity offers a fundamental rethinking of the cultural importance of the american civil war dead tracing their representational afterlife across a massive array of historical visual and literary documents from 1861 to 1914 ian finseth maintains that the war dead played a central complex and paradoxical role in how americans experienced and understood the modernization of the united states from eyewitness accounts of battle to photographs and paintings and from full dress histories of the war to fictional narratives finseth shows that the dead circulated through american cultural life in ways that we have not fully appreciated and that require an expanded range of interpretive strategies to understand while individuals grieved and relinquished their own loved ones the

collective civil war dead finseth argues came to form a kind of symbolic currency that informed americans melancholic relationship to their own past amid the turbulence of the postbellum era as the united states embarked decisively upon its technological geopolitical and intellectual modernity the dead provided an illusion of coherence intelligibility and continuity in the national self at the same time they seemed to represent a traumatic break in history and the loss of a simpler world and their meanings could never be completely contained by the political discourse that surrounded them reconstructing the formal rhetorical and ideological strategies by which postwar american society reimagined and continues to reimagine the civil war dead finseth also shows that a strain of critical thought was alert to this dynamic from the very years of the war itself the civil war dead and american modernity is at once a study of the politics of mortality the disintegration of american victorianism and the role of visual and literary art in both forming and undermining social consensus

this volume is about the type of work that poets perform and why it matters challenging the divide between inspired poetic production and other apparently lesser and contingent forms of labor this book considers the poetry of walt whitman the real estate dealer herman melville the customs inspector and hart crane the copywriter

epub version best selling test prep that has a companion audiobook to help learn by ear as well perfect for students esl learners and everyone else to learn about the most important american idioms phrases slang

for the last 150 years advertising has created a consumer culture in the united states shaping every facet of american life from what we eat and drink to the clothes we wear and the cars we drive in the united states advertising has carved out an essential place in american culture and advertising messages undoubtedly play a significant role in determining how people interpret the world around them this three volume set examines the myriad ways that advertising has influenced many aspects of 20th century american society such as popular culture politics and the economy advertising not only played a critical role in selling goods to an eager public but it also served to establish the now world renowned consumer culture of our country and fuel the notion of the american dream the collection spotlights the most important advertising campaigns brands and companies in american history from the late 1800s to modern day each fact driven essay provides insight and in depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly appreciate these volumes demonstrate why advertising is absolutely necessary not only for companies behind the messaging but also in defining what it means to be an american

throughout history american literature has provided an escape from the classroom yet authors like twain melville and ellison remain key figures in high school and college curricula this book offers an account of this paradox examining the contentious but ultimately generative relationship between literary and scholastic

culture in the us

the demise of the monarchy and the bodily absence of a king caused a representational crisis in the early republic forcing the american people to reconstruct the social symbolic order in a new and unfamiliar way social historians have routinely understood the revolution and the early republic as projects dedicated to and productive of reason with the people as an orderly and sensible collective at odds with the volatile and unthinking crowd american enchantment rejects this traditionally held vision of a rational public sphere arguing that early americans dealt with the post monarchical crisis by engaging in civil mysticism not systematic discussion and debate by evaluating a wide range of social and political rituals and literary and cultural discourses sizemore shows how enchantment becomes a vital mode of enacting the people after the demise of traditional monarchical forms in works by charles brockden brown washington irving catharine sedgwick and nathaniel hawthorne as well as in delaware oral histories accounts of george washington s inauguration and methodist conversion narratives enchantment is an experience uniquely capable of producing new forms of popular power and social affiliation recognizing the role of enchantment in constituting the people overturns some of the most common sense assumptions in the post revolutionary world above all that the people are not simply a flesh and blood substance but also a mystical force

time capsules offer unexpected insights into how people view their own time place and culture as well as their duties to future generations remembrance of things present traces the birth of this device to the gilded age when growing urban volatility prompted doubts about how the period would be remembered or if it would be remembered at all yablon details how diverse americans from presidents and mayors to advocates for the rights of women blacks and workers constructed prospective memories of their present they did so by contributing not just written testimony to time capsules but also sources that historians and archivists considered illegitimate such as photographs phonograph records films and everyday artifacts by offering a direct line to posterity time capsules stimulated various hopes for the future remembrance of things present delves into these treasure chests to unearth those forgotten futures

in this era of tweets and blogs it is easy to assume that the self obsessive recording of daily minutiae is a recent phenomenon but americans have been navel gazing since nearly the beginning of the republic the daily planner variously called the daily diary commercial diary and portable account book first emerged in colonial times as a means of telling time tracking finances locating the nearest inn and even planning for the coming winter they were carried by everyone from george washington to the soldiers who fought the civil war and by the twentieth century this document had become ubiquitous in the american home as a way of recording a great deal more than simple accounts in this appealing history of the daily act of self reckoning molly mccarthy explores just how vital these unassuming and easily overlooked stationery staples are to those who use them from their origins in almanacs and blank books through the nineteenth century and on to the enduring

legacy of written introspection mccarthy has penned an exquisite biography of an almost ubiquitous document that has borne witness to american lives in all of their complexity and mundanity

in the transatlantic world of the late eighteenth century easterly winds blew radical thought to america thomas paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the revolution in his wake followed more than 200 other radical exiles english dissenters whigs and painites scottish lads o parts and irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation michael durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on american political thought transatlantic radicals uncovers the roots of their radicalism in the old world and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country nearly all of these radicals looked to paine as their spiritual leader and to thomas jefferson as their political champion they held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of jefferson s republican party their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution as political activists during the 1790s they proved crucial to jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the new world although many of these men are known to us through other histories their influence as a group has never before been so closely examined durey persuasively demonstrates that the intellectual ferment in britain did indeed have tremendous influence on american politics his account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms skillfully balancing a large cast of characters transatlantic radicals depicts the diversity of their experiences and shows how crucial these reluctant émigrés were to shaping our republic in its formative years

during the days of slavery in america racism and often faulty medical theories contributed to an atmosphere in which african americans were seen as chattel some white physicians claimed that african americans had physiological and anatomical differences that made them well suited for slavery these attitudes continued into the reconstruction and jim crow eras in race and medicine historian todd savitt presents revised and updated versions of his seminal essays on the medical history of african americans in the late nineteenth and early twentieth centuries especially in the south this collection examines a variety of aspects of african american medical history including health and illnesses medical experimentation early medical schools and medical professionals and slave life insurance savitt examines the history of sickle cell anemia and identifies the first two patients with the disease noted in medical literature he proposes an explanation of why the disease was not well known in the general african american population for at least 50 years after its discovery charleston low country and not elsewhere in the country other topics savitt explores include african american

medical schools the formation of an african american medical profession and sids among virginia slaves with its new research data and interpretations of existing materials race and medicine will be a valuable resource to those interested in the history of medicine and african american history as well as to the medical community
