this concise digestible book shows how the cultivation of reason became the defining aim of western education and critiques how this aim has been eclipsed in recent decades by the neoliberal system of mass schooling imposed by the state chapters outline succinctly the history of western education and its origins in ancient greece demonstrating how the idea of education as intrinsically related to the development of reason became embedded in the

western educational tradition and how this tradition subsequently developed and evolved introducing key philosophical ideas about the nature of education the book shows how the development of mass schooling in the 19th century led to our current educational landscape where neoliberal demands for schools to be more responsive to market forces have obscured the development of reason as a distinctive educational aim by inviting educators to think reflectively and critically about the state of education today the book raises the little discussed educational question of what comes after neoliberalism calling for the re establishment of western education s core values and aims this book will be of interest to educators researchers and students involved with pre and in service teacher education courses as well as those interested in the history of education and the philosophy of education more broadly
