now published by sage this scholarly text covers the first one hundred years of sociological theorizing from 1830 1930 focusing primarily on comte spencer marx weber simmel durkheim and mead the text provides an in depth examination of these early sociological theorists with biographical background analysis of key works major influences critical insights and also answers the question what do these ideas tell us about the basic forces that shape the social world posing this question for each theorist adds a unique perspective to the text and distinguishes it from other sociological theory books in addition it also includes material on the enduring models and principles of the theorists work that continue to inform sociological theory today

this scholarly text covers the first one hundred years of sociological theorizing from 1830 1930 focusing primarily on comte spencer marx weber simmel durkheim and mead the text provides an in depth examination of these early sociological theorists with biographical background analysis of key works major influences critical insights and also

answers the question what do these ideas tell us about the basic forces that shape the social world posing this question for each theorist adds a unique perspective to the text and distinguishes it from other sociological theory books in addition it also includes material on the enduring models and principles of the theorists work that continue to inform sociological theory today

can we understand important social issues by studying individual personalities and decisions or are societies somehow more than the people in them sociologists have long believed that psychology can't explain what happens when people work together in complex modern societies in contrast most psychologists and economists believe that if we have an accurate theory of how individuals make choices and act on them we can explain pretty much everything about social life social emergence takes a new approach to these longstanding questions sawyer argues that societies are complex dynamical systems and that the best way to resolve these debates is by developing the concept of emergence focusing on multiple levels of analysis individuals interactions and groups and with a dynamic focus on how social group phenomena emerge from communication processes among individual members this book makes a unique contribution not only to complex systems research but also to social theory

this text specifically for aqa specifications is designed to be easy and encouraging for students to use the book contains updated material and activities together with a new chapter on study skills it also indicates clearly where activities meet the new evidence requirements for key skills

a philosophical history of german sociology presents a systematic reconstruction of critical theory from the founding fathers of sociology marx simmel weber via lukács to the frankfurt school horkheimer adorno habermas through an in depth analysis of the theories of alienation rationalisation and reification it investigates the metatheoretical presuppositions of a critical theory of the present that not only highlights the reality of domination but is also able to highlight the possibilities of emancipation although not written as a textbook its clear and cogent introduction to some of the main theories of sociology make this book a valuable resource for undergraduates and postgraduates alike the following in depth investigation of theories of alienation and reification offer essential material for any critique of the dehumanizing tendencies of today's global world recently translated into english from the original french for the first time this text showcases vandenberghes mastery of the german french and english schools of sociology study the result is an important and challenging text that is essential reading for sociology students of all levels Frédéric vandenberghé is a sociology professor and researcher at iuperj instituto universitário de pesquisas do rio de janeiro rio de janeiro brazil his writings on a broad range of sociological topics have been published as books and articles around the world

drawing extensively on the research findings of natural and social sciences both in america and europe reframing the social argues for a critical realist and systemist social ontology designed to shed light on current debates in social theory concerning the relationship of social ontology to practical social research and the nature of the social it explores the works of the systems theorist mario bunge in comparison with the approach of niklas luhmann and critical social systems theorists to challenge the commonly held view that the systems based approach is holistic in nature and necessarily downplays the

role of human agency theoretically sophisticated and investigating the work of a theorist whose work has until now received insufficient attention in anglo american thought this book will be of interest to those working in the field of social theory as well as scholars concerned with philosophy of social science the project of analytical sociology and the nature of the relationship between the natural and social sciences
