this reference has been written by an international team of contributors presenting a global understanding of the key issues within social sciences a board of advisory editors has worked closely with the editors in determining the most important concepts thinkers and techniques in each field

the encyclopedia of social theory contains over 500 entries varying from concise definitions of key terms and short biographies of key theorists to comprehensive surveys of leading concepts debates themes and schools the object of the encyclopedia has been to give thorough coverage of the central topics in theoretical sociology as well as terms and concepts in the methodology and philosophy of social science although 106 theorists are given entries the emphasis of the work is on the elucidation of ideas rather than intellectual biography the encyclopedia covers the leading contemporary domains of debate on social theory and the classical legacies of social thinkers from the nineteenth and early twentieth centuries giving proper balance to both the european and north american traditions and to important new developments in the global self understanding of sociology social theory has become one of the most vigorous specialisms of sociology in recent years this is in part due to the considerable overlaps of social theory with other disciplinary areas such as cultural and media studies anthropology and political theory and to the cross disciplinary nature of theoretical approaches such as feminism and psychoanalysis and new fields such as postcolonial studies the editors have therefore worked to produce in the encyclopedia of social theory a first call reference for students and researchers across the social sciences and humanities with an interest in contemporary

theory and the modern history of ideas the encyclopedia has been authored by leading international specialists in the field under the direction of a well balanced editorial team it is comprehensively cross referenced and all larger entries carry bibliographies there is a full index

the set offers clear descriptions of commonly used and sometimes misunderstood terms e g cultural differences authoritarian personality and neuroticism the field has expanded since publication of the blackwell encyclopedia of social psychology ed by a manstead and m hewstone et al ch jan 96 33 2457 and this work is a valuable response to that summing up recommended all levels choice not long ago social psychology was a small field consisting of creative energetic researchers bent on trying to study a few vexing problems in normal adult human behavior with rigorous scientific methods in a few short decades the field has blossomed into a major intellectual force with thousands of researchers worldwide exploring a stunningly diverse set of fascinating phenomena with an impressive arsenal of research methods and ever more carefully honed theories the encyclopedia of social psychology is designed as a road map to this rapidly growing and important field and provides individuals with a simple clear jargon free introduction these two volumes include more than 600 entries chosen by a diverse team of experts to comprise an exhaustive list of the most important concepts entries provide brief clear and readable explanations to the vast number of ideas and concepts that make up the intellectual and scientific content in the area of social psychology key features provides background to each concept explains what researchers are now doing with it and discusses where it stands in relation to other concepts in the field translates jargon into plain clear everyday language rather than speaking in the secret language of the discipline offers contributions from prominent well respected researchers extending over the many subfields of social psychology that collectively have a truly amazing span of expertise key themes action control antisocial behaviors attitude culture emotions evolution groups health history influence interpersonal relationships judgment and decision making methods personality prejudice problem

behaviors prosocial behaviors self social cognition subdisciplines the encyclopedia of social psychology is the first resource to present students researchers scholars and practitioners with state of the art research and ready to use facts from this fascinating field it is a must have resource for all academic libraries

this defining work will be valuable to readers and researchers in social sciences and humanities at all academic levels as a teaching resource it will be useful to instructors and students alike and will become a standard reference source essential for general and academic collections choice this encyclopedia provides readers with authoritative essays on virtually all social science methods topics quantitative and qualitative by an international collection of experts organized alphabetically the encyclopedia of social science research methods covers research terms ranging from different methodological approaches to epistemological issues and specific statistical techniques written to be accessible to general readers the encyclopedia entries do not require advanced knowledge of mathematics or statistics to understand the purposes or basic principles of any of the methods to accomplish this goal there are two major types of entries definitions consisting of a paragraph or two to provide a quick explanation of a methodological term and topical treatments or essays that discuss the nature history applications and implications of using a certain method including suggested readings and references readers are directed to related topics via cross referenced terms that appear in small capital letters by assembling entries of varied origins and serving different research purposes readers will be able to benefit from this immense source of methodological expertise in advancing their understanding of research with three volumes and more than 900 signed entries the encyclopedia of social science research methods will be a critical addition to any social science library

the wiley blackwell encyclopedia of social theory presents a comprehensive interdisciplinary compendium of original entries focusing on the origins evolution and global development of contemporary social theory presents a

comprehensive interdisciplinary overview and analysis of all aspects of social theory features more than 850 in depth original entries contributed by international experts includes all major theories theorists schools of thought disciplines debates doctrines developments epistemologies and methodologies relating to the development of modern social theory brings in concepts from contemporary cultural studies feminism post secularism and postmodernism explores controversial contemporary debates relating to the clash of civilization environmentalism post colonialism post humanism cyborgs and the life extension project

the encyclopedia of social theory includes over 280 entries a master bibliography biographical coverage of major theorists features extensive cross referencing to provide a comprehensive reference tool for anyone with an interest in social theory

emphasizes extensive coverage of the major social history topics and methods each entry is followed by one or more references most emphasize the latest and or the most comprehensive work

this encyclopedia now available in paperback is the definitive resource for all students teachers and researchers of social psychology eager to know more about a particular phenomenon concept or theory each key topic is addressed by internationally recognized authorities making the encyclopedia both comprehensive and authoritative

providing a guide to the ideas arguments and history of the discipline this volume discusses human social and cultural life in all its diversity and difference theory ethnography and history are combined in over 230 entries on topics

from terrorism to social inequality and from health care to environmental issues social problems affect us all the encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a

continuing concern in our lives whether we confront them on a personal local regional national or global level available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions also included are biographical entries on major policy makers and shapers the editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field comprehensive and authoritative the encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice to this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches the whole is integrated by cross referencing and each entry includes a bibliography for further reading there is a full index the international encyclopedia of social policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come

fully revised and updated the second edition of the international encyclopedia of the social and behavioral sciences twenty five volume set first published in 2001 offers a source of social and behavioral sciences reference material that is broader and deeper than any other available in both print and online editions it comprises over 3 900 articles commissioned by 71 section editors and includes 90 000 bibliographic references as well as comprehensive name and

subject indexes provides authoritative foundational interdisciplinary knowledge across the wide range of behavioral and social sciences fields discusses history current trends and future directions topics are cross referenced with related topics and each article highlights further reading

from terrorism to social inequality and from health care to environmental issues social problems affect us all the encyclopaedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives whether we confront them on a personal local regional national or global level the goal of the encyclopedia of social problems is to provide a premier reference tool for students scholars and professionals with a wide range of specialities covering all of the major theories approaches and contemporary issues in social problems and their interconnectedness the encyclopaedia will also provide insight into how social conditions get defined as social problems and the ways different people and organizations view and try to solve them the encyclopedia will be organized in a to z format with cross referencing of entries around a series of broad themes contributors will come from many disciplines including economics geography political science psychology sociology and women s s studies

provides entries for terms phrases people and other aspects of the social sciences and includes quotations from individuals in various fields
