your behavior consists of everything that you do in life knowingly and unknowingly even more your behavior represents and is a consequence of everything that you need mean and think throughout life yet it was so easy to manage your life if your behavior was so easy to define because you always live your life alongside the rest of society and always influenced by the rest of the world in every manner you are a social value highly useful to others and this is how others end up controlling you and your behavior according to their own needs and reasoning with or

without your consent and this is how you behave and live your life in society you influence and you are influenced by others continuously according to your needs beliefs duties capabilities orders and agendas and you do so successively continuously and many times simultaneously throughout life and throughout society even more your social behavior does not define you entirely since your private hidden behavior is distinct from your open social one you work hard to keep this shadow behavior unnoticed and at bay but now when you consider it you realize that it defines you more than everything else this has always been the case it can make life fun and exciting at times yet it can become dangerous and expensive because it has become a continuously hidden need that you are forced to fulfill consistently and many times you would rather avoid this private behavior if you only knew how what happens is that the entire world lives in this major dissociation because everybody seeks privacy and intimacy in life for various reasons as everybody lives in the hiding most of the time overwhelmed guilty and confused and now you seek to find out why you behave in this manner you want to know what you can do in order to change and improve your behavior you seek to know how to educate your children towards adopting a good behavior in life and in the world and this is why you read this book throughout this book you learn everything about the human behavior everything necessary to help you control yourself understand others and develop to higher levels along with everything necessary for you to help and educate others to behave well while developing consistently to higher levels

love and the divine are the best meanings there can be just because love stands at the top of your feelings and you treasure the most while the divine is everything that exists you cannot find anything beyond love and the divine capable enough to set your meaning in life and in this world simply because there is nothing else beyond them however there is significantly more to learn and understand about the human meaning just because as it is presented in this world today through science literature philosophy and through the rest of ideologies it is not enough you fail to understand the human meaning and this causes you to fail your own meaning in life and in this world at least your natural meaning as you receive it from life and from the divine because the concept of meaning is presented to you empirically today you cannot understand it accurately in this manner but only through doctrine and beliefs you can never engage your reasoning in this manner in order to grasp accurately your own natural meaning your natural meaning is easily hijacked and everything is done on purpose to harm and exploit you in this manner you end up fulfilling consensually implemented meanings throughout life on behalf of the rich and the powerful of this world since they are the ones controlling ideologies and therefore consensual meanings in this world not much that you do now counts for life and for the divine despite of what ideologies tell and promise and when you look back now you may see the kind of world that you create and do not blame the rich and the powerful of this world since you are the one doing everything for them many times it is for your children that you struggle throughout life to make them happy to make them worthy and to make everything count because this is exactly your meaning in your family yet can't it be the same in your community and in society does it ever make a difference to have or not to have a specifically defined meaning in life and in this world yes it certainly makes a difference because all meanings count even the slightest ones since they are connected and it is always a matter of identifying your meanings instead of fulfilling them unknowingly otherwise you end up working your entire life in vain while through your consensually induced meanings you end up working against the meanings of others deliberately or not living your life against your loved ones while they can certainly feel and this ruins entire relationships this is your consensual meaning in your family in society in life and in this world and so you end up living your life against yourself against your own natural meaning throughout this book we follow identify define understand and model the human meaning genuine and consensual from all perspectives and in all contexts you learn about your meaning in life in this world in society within your family and genetic line within your own cognitive system within higher worlds and within everything that exists

important all life is interconnected it is impossible for people to separate themselves from each other the earth or the many living things on the earth when we lack respect for the environment and the earth we are inevitably damaging ourselves as well the health of the earth defines our well being the damage we do to the earth is often returned upon man with the advent of global warming there has been an increase in disease and chronic environmentally caused conditions such as asthma water is the essence of all life our disastrous policies and ongoing pollution have the potential to do devastating damage to our water supply the air we breathe air is essential to human life yet man has shown a remarkable disrespect for air since the industrial revolution we spew pollution including carbon dioxide sulfur and other harmful chemicals into the atmosphere at startling rates it is vital to the ongoing health of mankind that we begin to show more respect for the atmosphere and what we put into it the limits of fossil fuels oil has been an abundant resource for hundreds of years but supplies are becoming scarcer indeed the scarcity of oil has led to an increase in oil prices making it important and economical for consumers to focus on efficiency of usage efficiency in the home car and in life can not only save money it can help the environment the food that nourishes many of the foods we eat on a year round basis are in fact seasonal in different areas of the world this means that to get these foods during seasons they do not grow they are shipped from elsewhere in the world while this allows us to have tomatoes in the winter it is important to note that these tomatoes are not as fresh or flavorful as those grown locally in addition the constant transport of food over vast distances contributes heavily to global pollution as the amount of energy consumed and waste created to transport fresh food is extremely large the fragile balance the earth is hospitable to mankind because of the balance maintained in the environment with our constant pollution and energy use we are threatening that balance and so harming ourselves and our future if this balance is disturbed in any major way the planet could become uninhabitable to future generations you can save the earth offers seven simple ways that you can contribute to a positive future love the earth a deeper understanding of your relationship with the earth and the joy and health it brings you is important to changing your behavior to accommodate the earth s needs make wiser choices in this day and age there are a plethora of products that offer energy saving environmentally friendly options for the home and business choose to reduce reducing energy usage and consumption are great ways to help the environment and save money embrace green technology compact fluorescent lights offer a more energy efficient alternative to incandescent lights adding insulation to your home can help you reduce your energy consumption and save you money recycle reuse and repair the rampant consumerism and short lived product life spans we see today are relatively recent developments during more challenging economic times people often made do with what they had this meant repairing things in unique and inventive ways next time you are considering throwing something away in favor of buying a new copy think of ways you could continue to use or it or repair it think local ride your bicycle to work take public transportation eat locally grown foods purchased at farmer

s markets these are all ways that you can contribute to your local community save energy and live a healthier life cherish the earth s precious gifts we have been blessed with a beautiful home a beautiful environment and an often picturesque habitat in which we can grow and thrive it is important to appreciate the beauty and opportunity that the earth offers us and in turn work to respect the earth and conserve its natural wonder and beauty a portion of the proceeds from your purchase goes to good designated for non profit organizations specifically active in addressing the issues that face the survival of the earth including wildlife conservation society national audubon society save the whales sierra club waterkeeper alliance charity water the nature conservancy cousteau society the we campaign community food security coalition slow food usa appalachian mountain club wwf the global conservation organization community trees earth corps go green initiative the kids ecology corps national resources defense council people and planet trees forever outward bound millennium villages shoe 4 africa the mountain institute the rainforest foundation us finca international
