teachers students and amateur artists will all benefit from the advice of this esteemed educator and fine artist whose book as described by a colleague is a cause célèbre for art

education not only because it meets the urgent professional need but also because it combines artistic aesthetic and instructional considerations in a way which is significantly different from any other text encouraging teachers and students to use his suggestions in ways they feel most appropriate the author an expert guide and teacher offers sound advice on methods and techniques for artists at all levels using the lessons and methods he employed over the years as an instructor kaupelis focuses on solving the problems common to many illustrators among them successfully developing perspective contour and modeled drawing and drawing from memory and projected images a splendid blend of instruction analysis and insights this volume one of the most widely read art instruction texts deserves a place on the shelves of instructors and serious students of art

this book a new approach to drawing is based on thirty years of teaching visual art in a small college in duluth minnesota located on the shores of lake superior my intention in writing this book is to share my knowledge for the purpose of offering a new method of learning basic drawing and providing a new access point for anyone interested in learning how to draw what sets my book apart from others of its kind is that my method focuses on problem solving through the process of drawing in art as in life it's important to understand the problems before us look at them from diverse perspectives and come up with the best possible solution while i anticipate the main audience for this book will be comprised of students anyone wanting to acquire drawing skill quickly and easily will benefit from learning my techniques my instruction is simple and direct with a minimum of confusing terms

going beyond conventional approaches this drawing text featuring a wealth of professional examples emphasizes the emotional intellectual and spiritual significance of art the development of today's art from that of the past is traced giving a sense of meaning and continuity illustrations and analyses enable students to turn their energies to new and different directions to give material form to their own ideas art of the last two decades is given broad coverage and analysis including work from self taught artists and from a multitude of ethnic groups all chapters have new introductory texts innovative problems pertinent to our contemporary world sketchbook projects and new illustrations new color plates and an expanded discussion of spatial relationships enhance part ii

heralded as a revolutionary right brain approach to figure drawing this guide focuses on mentality rather than technique more than 180 black and white drawings and eight pages of color illustrations
