bachelor thesis from the year 2011 in the subject english language and literature studies linguistics grade 2 0 justus liebig university giessen language english abstract this thesis investigates the use of african american vernacular english in contemporary music aave is an ethnic variety spoken by many though not all african americans living in the united states this dialect does not have one name only but is also called negro dialect nonstandard negro english black english black street speech black vernacular english black vernacular english or african american english i would like to add that some terms are historical it is crucial to know that researchers call it differently because to a large degree it depends on the time he she conducted research on this topic today the dialect is either called african american vernacular english or african american english the words contemporary music in the title refer to hip hop this music genre was chosen to be investigated because out of the music genres african americans are involved in it is the one that generates most of the sales and is the most popular one the rappers which are going to be analyzed in this thesis use many of the features of the african american vernacular given the huge number of aave features only one of them will be analyzed the copula verb to be which in the following will only be called the copula according to wolfram the copula is one of the most often described structures of aave 2008 517 for this reason the copula might be an interesting feature to look at when researchers examined aave in the past they did not necessarily take music as a source of data but rather spoken language one has to know that language in music is a different genre of language use which differs from the usual use of the language music can be considered an artistic expression but not real speech nevertheless as music has always been and presumably will always be a big part in african american culture it should be possible to recognize features of aave and use music as a reliable source in the analysis conducted in this thesis the use of the copula will be examined by having a look at the lyrics of three famous rappers from the us tupac jay z and 50 cent even though the three of them can be assigned to gangsta rap they all differ from each other they all started their careers in different decades come from different cities and have a different style of rapping what they have in common is that they are african american rappers from a lower class who grew up in poverty and have become successful musicians

seminar paper from the year 2008 in the subject english applied geography grade 1

7 university of duisburg essen geisteswissenschaften course english in north america language english abstract from the very start i was very interested in african american vernacular english aave in this work i also wanted to include a bit of history i consider that history is an important influence on the present not only regarding language but everything history shows us the roots of things and a person who knows history avoids doing the same mistake again in case of aave the language is indeed connected to the history of the african americans to the history of slavery and so to the history of the united states of america for me it is also important to give a wide range on the knowledge about aave a frame of history starting with the broad picture about the settlement and the rest of the history of the us then i will look on the history of the african americans and the origin of their language finally a description of aave and its features follows the question this essay deals with was mostly inspired by the controversial views about the origin of aave namely the creole based and the dialect theory those might be only theories about the origin of aave but assuming one of those theories is correct defines a certain point of view on aave is aave only a dialect derived from a pidgin which developed somewhere in the caribbean or on in west africa or is aave a dialect which developed in the same manner and at the same time like all the other american dialects is it correct to compare aave to standard english listing the mistakes this variety makes or should it rather be compared to other varieties

my diploma thesis deals with the topic of african american vernacular english which is a variety or a dialect of english spoken in the united states of america that has caused a lot of controversy over the years especially because of the connection between the times of slavery and this particular variation of the english language the thesis starts off with a brief explanation of different denominations aave has received up until now from the most derogatory ones to the ones that are more politically correct and therefore used currently then it continues with various hypotheses about the origin of aave namely the dialectologist hypothesis the creole hypothesis the neo anglicist hypothesis and the substrate hypothesis after explaining the hypotheses and giving various proof that support each one of them the thesis continues with the discussion about the current social status of aave and also explains how it has changed over the years a big part of the current opinion on aave was also formed by the ebonics controversy and the way it was resolved the next thing explained are some linguistic features of aave that illustrate how different aave actually is from standard english also included in this part are the intonation and discourse strategies that only aave speakers use and are foreign to

standard english speakers the second part of the thesis deals with people's views on different languages or dialects that is to say the division of dialects to high and low class and the consequential social stratification of speakers of different dialects firstly it is explained and exemplified how african americans perceive aave and whether they stand behind it or rather abandon it for the standard and socially accepted variety of english secondly the opinions of the caucasian american population are presented and contrasted with the african american ones finally the thesis concludes with the question whether aave deserves to be called a language or is it just a dialect or even worse a bad version of english various definitions and opinions are presented and contrasted so that in the end a conclusion can be made

this volume based on presentations at a 1998 state of the art conference at the university of Georgia critically examines african american english aae socially

culturally historically and educationally it explores the relationship between aae and other varieties of english namely southern white vernaculars gullah and caribbean english creoles language use in the african american community e g hip hop women s language and directness and application of our knowledge about aae to issues in education e g improving overall academic success to its credit since most books avoid the issue the volume also seeks to define the term aae and challenge researchers to address the complexity of defining a language and its speakers the volume collectively tries to help readers better understand language use in the african american community and how that understanding benefits all who value language variation and the knowledge such study brings to our society

seminar paper from the year 2006 in the subject american studies linguistics grade 1 3 free university of berlin englische philologie language english abstract the subject of this paper is the variety african american vernacular english aave formerly known as black english vernacular among linguists and often called ebonics in the media i will use the term aave throughout this paper aave is a variant of english that shows some unique features no other variant of english shares aside there is a huge amount of commonalities between aave and standard english se and english vernaculars most of the commonalities aave shares with non standard variants of the south of the united states but even caribbean languages resemble aave a fact that has led to discussions about the origins of aave and its status there are two theories in competition the dialectal hypothesis and the creole hypothesis the discussion is not only linguistically interesting but also of political importance this will be discussed in the first two chapters of this paper it is very difficult to say how many people speak aave there may be speakers who use aave pronunciation and vocabulary but none of the grammatical features others may use other distinctive aspects of the variant linguists generally use the term aave for those variants that show certain distinctive grammatical features like copula deletion losing of third person singular s or double negation since these grammatical features occur variably that means in alternation with features of standard english it remains difficult to say how many people speak aave this variability shows the complex social attitudes that surround aave among other things that is why it has attracted the attention of many sociolinguists and has been the main focus of several public discussions ten years ago a resolution passed by the oakland school board hit the headlines in comparison to their white contemporaries black children come off badly in school as a result the members of the school board claimed that aave should be officially recognized as the

seminar paper from the year 2016 in the subject english language and literature studies linguistics grade 10 course varieties of english new englishes language english abstract first of all this term paper will give some general information about the variety african american vernacular english itself its origins and who the speakers of aave are furthermore it will give an overview of some features of aave and finally the analysis of two of the features on different rap songs from the famous rapper snoop dogg the first feature that i will be looking at is zero copula and the second feature is the omission of the third person singular s in the present tense in this term paper i will investigate the occurrence of these two features in snoop dogg s lyrics from his first album doggystyle and his latest album bush and if they decreased or increased with time since music plays such a huge part in african american culture it should be possible to see these features of aave in the lyrics the analysis will contain 16 rap songs from snoop dogg s first album doggystyle from 1993 and 10 rap songs from his latest album bush from 2015 english is a language with many varieties and also one of the most spoken languages in the world the varieties of english are results of colonial expansion and may differ from each other in terms of pronunciation vocabulary and grammar african american vernacular english aave is the variety that people associate with as the language used by the black community the additional term vernacular refers to the speech style in everyday communication and differentiates black african american vernacular english speakers from black speakers of standard english especially in rap and hip hop music the number of black performers is very high since it was introduced as a new music genre the style of language that is used in hip hop lyrics is highly influenced by the african americans aave is a variant of english that you can hear every day on the radio or television for example and that also makes it so interesting to analyze its use features and origin

pre university paper from the year 2014 in the subject english language and literature studies linguistics grade 15 language english abstract african american english aave was first brought to the attention of linguists when in the 1960s the government realised that african american aa children from urban ghettos were worse in school than white pupils to counteract this it financed compensation programmes in which aa children should be taught standard english se by means of structural drills and techniques adopted from foreign language learning when this approach failed linguists suggested that aa children only spoke a different dialect

than white children and that consequently it would be necessary to teach them se as an additional dialect however this approach also failed because the failure of aa children in school seems to be a result of a cultural and social divide between aa and white american society of which separate dialects of english are only a symptom it will therefore be the aims of this paper to prove this belief wrong and prove that aave is indeed a rule governed language to investigate its origins and its use in zora neale hurston s most famous novel their eyeswerewatching god

seminar paper from the year 2007 in the subject american studies linguistics grade 2 0 free university of berlin language english abstract the united states have witness a problem concerning educating african american students in elementary schools and high schools one suggestion was that made in order to learn standard english se better is african american vernacular english aave ought to be taught at schools to highlight the differences between the two dialects in order for the children to master their studies and to succeed not only at school but also later at college the problem is that many teachers but also parents have negative attitudes toward teaching aave at school because they think that this is bad english and does not help to facilitate their lives but i argue in order to get positive attitudes toward aave one has to understand the complexity of that dialect which furthermore needs to be translated to the teachers training programs to help children acquire se and master their lives

seminar paper from the year 2022 in the subject english language and literature studies linguistics grade 3 0 university of würzburg neuphilologisches institut course hauptseminar linguistics of theoretical orientation language and music language english abstract for this paper song lyrics will be examined more closely for typical features of african american vernacular english based on the analysis of the findings any differences and similarities in the use and frequency of african american vernacular in the rap lyrics will be clarified and thus possible developments in the use of african american vernacular english in hip hop identified if necessary these will also be used to draw possible conclusions about american society in the second chapter of this thesis the theoretical background relevant to the understanding of the topic will be discussed an overview of the music genre of hip hop the variety of african american vernacular english and the selected artists is given after that the methodology of this thesis will be explained which will be used for the investigation of the research question this is followed by a comprehensive presentation of the results with a subsequent discussion and commentary on the

findings linguists are constantly noticing a constant change in languages and their varieties thus in the end it is to be expected that the characteristics of african american vernacular english have also changed in the rappers texts of different ages and can be determined with the help of this mini study since african american slang is still a stylistic device even in the works of white rappers no significant changes are to be expected in terms of the total frequency of general language elements from the african american vernacular english
