unrivaled diversity and ease of use have made the heath anthology of american literature volume e contemporary period 1945 to the present seventh edition a best selling text since 1989 when the first edition was published in presenting a more inclusive canon of american literature the heath anthology of american literature volume e contemporary period 1945 to the present seventh edition continues to balance the traditional leading names in american literature with lesser known writers available in five volumes for greater flexibility the seventh edition offers thematic groupings of readings called in focus to stimulate classroom discussions and showcase the treatment of important topics across the genres

unrivaled diversity and teachability have made the heath anthology a best selling text in presenting a more inclusive canon of american literature the heath anthology changed the way american literature is taught the sixth edition continues to balance the traditional leading names in american literature with lesser known writers and have built upon the anthology's other strengths its apparatus and its ancillaries

studying english literature is a unique guide for undergraduates beginning to study the discipline of literature and those who are thinking of doing so unlike books that provide a survey of literary history or non subject specific manuals that offer rigid guidelines on how to write essays studying english literature invites students to engage with the subject's history and theory whilst at the same time offering information about reading researching and writing about literature within the context of a university the book is practical yet not patronizing for example whilst the discussion of plagiarism provides clear guidelines on how not to commit this offence it also considers the difficulties students experience finding their own voice when writing and provokes reflection on the value of originality and the concepts of adaptation appropriation and intertextuality in literature above all the book prizes the idea of argument rather than insisting upon formulaic essay plans and gives many ways of finding something to say as you read and when you write in chapters on reading argument essays sentences and references

the heath anthology of american literature concise volume 2 brings the expansive inclusive approach of volumes c d and e of the heath anthology to a single volume format while other one volume texts anthologize primarily familiar canonical works the new heath concise volume 2 offers a fresh perspective for courses in american literature and showcases the extraordinary diversity of literature written between 1865 and today

this groundbreaking collection reinvigorates the debate over the inclusion of multiethnic literature in the american literary canon while multiethnic literature has earned a place in the curriculum on many large campuses it is still a controversial topic at many others as recent campus and corporate revivals of the great books attest many still perceive multiethnic literature as being governed by ideological and political issues perpetuating a false distinction between highbrow literary texts and multiethnic works through historical overviews and textual analyses the contributors not only argue for the aesthetic validity of multiethnic literature but also examine the innovative ways in which multiethnic literature is taught and critiqued the following questions are also addressed who and what determines literary value what role do scholars students the reading public book awards and or publishers play in affirming literary value taken together these essays underscore the necessity for maintaining vibrant conversations about the place of multiethnic literature both inside and outside the academy

though canon concerns seem to be a relic of 1990s academia we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race ethnicity and gender at the same time algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software bringing these divergent areas together amy e earhart examines how technological and institutional infrastructures construct and deconstruct race ethnicity and gender identities focusing on two central infrastructures the database a commonly used technological infrastructure in the digital humanities and the anthology a scholarly and pedagogical infrastructure earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity the book draws upon the building and use of data a collection of almost 100 years of generalist american and african american literature anthologies constructed to investigate questions of identity and representation in literary anthologies and by extension the larger literary canon the resulting examination and its rigorous discussion of how identities are created and recreated within black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures
