this vividly detailed revisionist history opens a new vista on the great ottoman empire in the early nineteenth century a key period often seen as the eve of tanzimat westernizing reforms and the beginning of three distinct histories ethnic nationalism in the balkans imperial modernization from istanbul and european colonialism in the middle east christine philliou brilliantly shines a new light on imperial crisis and change in the 1820s and 1830s by unearthing the life of one man stephanos vogorides 1780 1859 was part of a network of christian elites known phanariots institutionally excluded from power yet intimately bound up with ottoman governance by tracing the contours of the wide ranging networks crossing ethnic religious and institutional boundaries in which the phanariots moved philliou provides a unique view of ottoman power and ultimately of the ottoman legacies in the middle east and balkans today what emerges is a wide angled analysis of

governance as a lived experience at a moment in which there was no clear blueprint for power
