bigfoot film journal provides a detailed account and analysis of the circumstances and aftermath  
of one of the most controversial motion picture films in world history the patterson gimlin film in  
october 1967 roger patterson and robert gimlin filmed what many people believe was an actual  
sasquatch or bigfoot on a shore of bluff creek in northern california the one minute film they took  
of the creature has been vigorously debated for over 40 years and it continues to reside in the  
annals of the unexplained the creature filmed cannot be proven to be either an actual primate of  
some sort or a fabrication much has been written about the film in the past but the details of the  
filming and its aftermath have not been thoroughly researched and subjected to in depth critical  
analysis with the assistance and cooperation of robert gimlin and several major sasquatch  
bigfoot researchers the author has methodically detailed the fascinating story of the filming and  
the subsequent events many little known or indeed previously unknown facts are presented that
