a quote i love horse racing betting systems i repeat this quote in many of my books sorry for being boring i have to cover this early in the book as i believe this is probably overlooked by most

punters who continue to lose every day please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this we are looking for a winner in a race not the winner of a race remember the above quote as most punters fail to understand this quote and this is why they lose money most punters look at the race cards looking for the winner of the race they should be looking for the winner in a race you have to be confident you have spotted a potential winner in a race not of a race you have to be prepared not to have a bet on days when there are no winners in a race remember this chapter it will serve you well non handicap horse races most of my uk horse racing system books have centered around uk handicap horse races this system focuses on non uk handicap races i will explain why i opted for these types of races in handicap races horses are allotted weight in relation to their ability so the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple weight is a leveller it slows horses down but it is not that simple as horses can be cleverly placed in races i won't say much more on this but i think you get the point in non handicap uk races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse it is always difficult picking winners for handicap and non handicap races so we must not get complacent let us now look at this brilliant uk horse racing system

the sport of kings must take centre stage as far as this book is concerned as horse racing is the bread and butter of the business for all that punters moan about trainers and jockeys from time to time horse racing attracts thousands into shops up and down the land on a daily basis people have occasional speculative bets on the dogs but when a punter picks up their daily newspaper in the morning they generally cast their eyes up and down the racecards first and foremost why are punters attracted to the hardest races on the card furthermore why do bookmakers like these handicaps so much not only do these handicaps produce some of the most frenzied and varied gambles during the course of the year but the handicapper has done much of the work on the bookmaker's behalf attempting to create a multiple dead heat in the process

introduction i must thank you for buying my book and appreciate any comments on the system i have inserted my email address at the end of the book plus feel free to email me if you have any questions or need any help this horse racing system took me approximately 12 months to computer model and test primarily around uk handicap horse races this would have not been possible without my 10 years database of horse form and my IT computer skills uk handicap horse racing fascinates me i find it a great puzzle to solve and love form variables like weight official rating and many more this uk horse racing system has four simple steps that find winners daily and i have outlined tips to get more profit i like using this system for betting singles and doubles which are lethal and produce massive profits in the book i have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily i suggest that you make yourself familiar with each step of the system before you start placing bets i have included 100's of horse racing result examples that the system produced for the flat and jumps season 2019/2020 so you can back check these results to ensure you understand it in other words you can apply the system on these past results i have outlined using the racing post on the internet and my system with this suggested approach you will become more confident when placing bets or trades on your selections note try to keep away from stupid lucky 15 bets and large accas etc these are silly bets for recreational punters who bet with bookmakers at cramped odds i wrote this book to help fellow punters and traders to get an edge i hope you enjoy this one

this uk and irish handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race i wrote this system so that busy punters using the excellent

racing post on the internet for free can find profitable horses quickly in handicap horse races i like this book because i have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate i have written numerous books on horse racing but this is my favourite and most profitable uk and irish horse racing system

this powerful book by turf authority walter gibson shows experienced and novice handicappers how to profit by using winning strategies to beat the horses this repackaged edition shows bettors learn how to analyze their real winning chances when playing favorites middles odds and longshots and the proper formula they need to win by betting each group twenty five winning strategies are presented in seven concise chapters teaching horse goers how to find the best bets in a race the middle odds and overlays the weight factor playing longshots progressive betting systems and the daily double giving readers comprehensive coverage of picking winning horses a classic with plenty of no nonsense information

the methods and angles that follow have been among ken osterman s favorites over the years they have been developed and tested on races at racetracks all over the country there are systems that cover all three main breeds of horse racing thoroughbreds quarter horses and standardbreds the rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet there are a couple of systems that use that tote board and require no past performances these are systems that ken osterman has used successfully at race and sports books the rules for each system are clearly explained so it is understood why they work tips for improving these systems are also provided here is the list of the systems thoroughbred 1 best jockey long shot method 2 bet the fastest horse 3 the b6 sprint system for thoroughbreds 4 a beaten favorite system 5 class on the turf 6 the new low claiming price angle 7 the route speed method 8 three strikes and you re out a maiden claiming route angle 9 an australian thoroughbred betting method show a profit down under quarter horse 10 the hidden speed horse angle 11 the quarter horse speed index method 12 a quarter horse elimination method harness racing 13 the qualifier advantage 14 morning line overlay 15 the quick rating method for harness racing 16 the non winners of x races lifetime angle tote board methods 17 tote board magic 18 tote board magic ii 19 betting favorites using the modified d alembert betting method

introduction i have written a number of racing systems but this is the best one and i use this for most of my racing bets the key to this system is quality not quantity and looking for horses that tick all the four form variables lp or cr wd which i will explain later the system also only looks for horses that are carrying 8 pounds or more in weight which normally means a class drop or the horse has improved understand the system before placing bets i hope you enjoy it how the system works the system works for uk handicap and non handicap races but i tend to favour handicap

races as the prices are larger i will concentrate only on handicap races in this book you will need access to the internet and the racing post website this is free racingpost com

introduction the title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is i have written many books around uk horse racing systems and this one i really enjoyed due to the simplicity of this horse racing system and how easy it is to apply the system uses the excellent free racing post website where you can obtain all the form data you need to use this system plus you do not have to be a form expert to understand it i personally think horse racing pundits make heavy weather of horse racing form i e looking at a horse s breeding and many other factors i think this information just confuses the average punter i have added a special bonus horse laying system in this book and i think you will enjoy it this laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did i get it so wrong yes it will hurt knowing how much money you lost when you should have not moving back onto the horse backing system picking winners will be very easy for you and even more you will gain confidence and control in your betting this horse racing system normally picks 2 to 3 horses per day in uk handicap horse racing markets you should aim at using betfair to place your bets due to the better prices and in play tactic i will show you in this book understand the system before placing bets i hope you enjoy it
