a look at how the desire to improve international status affects russia's and china's foreign policies deborah welch larson and alexei shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of china and russia applying social identity theory the idea that individuals derive part of their identity from larger communities to nations they contend that china and russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities to make this argument they analyze numerous cases including catherine the great's attempts to westernize russia china's identity crises in the nineteenth century and both countries' responses to the end of the cold war the authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations combined with historical precedent this socio psychological approach helps explain current trends in russian and chinese foreign policy

from the former new york times asia correspondent and author of china's second continent an incisive investigation of china's ideological development as it becomes an ever more aggressive player in regional and global diplomacy for many years after its reform and opening in 1978 china maintained an attitude of false modesty about its ambitions that role reports howard french has been set aside china has asserted its place among the global heavyweights revealing its plans for pan asian dominance by building its navy increasing territorial claims to areas like the south china sea and diplomatically bullying smaller players underlying this attitude is a strain of thinking that casts china's present day actions in decidedly historical terms as the path to restoring the dynastic glory of the past if we understand how that historical identity relates to current actions in

ways ideological philosophical and even legal we can learn to forecast just what kind of global power china stands to become and to interact wisely with a future peer steeped in deeply researched history as well as on the ground reporting this is french at his revelatory best

this book examines the seven key issues related to china which have been identified by experts over the past few centuries the topics addressed include china s impact on international discourse the inheritance of chinese civilization the great divergence between chinese and western histories kondratiev cycle theory the socialist system and its future prospects the chinese path to modernization and the belt and road initiative the authors explore these issues within the broader context of human civilization and the evolving global landscape offering systematic explanations for each topic and redefining the concepts of world china studies

distinguished historian benjamin a elman s collective volume on the history of science in imperial china brings together over 30 years of historical literature on the subject with updates to the literature and new material including transcripts of podcasts and translated interview articles science in china takes the reader on a journey starting in the early 17th century with the missionary efforts of the jesuits in china and ending with the protestant missions in the 19th century these two milestone encounters brought western sciences to local chinese scholars with great success in shaping modern chinese science elman studies the interaction between western and chinese sciences through philological research and evidence and treats the two encounters not as separate events but as a continuum of creative exchange of scientific knowledge and discourse
