lanyon looks at the absorbing and fascinating life of cortes the illegitimate son of a conquistador and an indigenous american woman who lived grandly and suffered greatly in the new and old worlds of 16th century spain

looks at how ambition once considered a vice became a celebrated virtue that defines american character

early modern geographers and compilers of travel narratives drew on a lexicon derived from cartography s seemingly unchanging coordinates to explain human diversity sandra young s inquiry into the partisan knowledge practices of early modernity brings to light the emergence of the early modern global south young proposes a new set of terms with which to understand the racialized imaginary inscribed in the scholarly texts that presented the peoples of the south as objects of an inquiring gaze from the north through maps images and even textual formatting equivalences were established between new worlds many of them long known to european explorers she argues in terms that made explicit the divide between north and south this book takes seriously the role of form in shaping meaning and its ideological consequences young examines in turn the representational methodologies or artes deployed in mapping the whole world illustrating creating charts for navigation noting down observations collecting and cataloguing curiosities reporting events formatting materials and editing and translating old sources by tracking these methodologies in the lines of beauty and evidence on the page we can see how early modern producers of knowledge were able to attribute alterity to the southern climes of an increasingly complex world while securing their own place within it

following rivers of gold and the golden empire and building on five centuries of scholarship world without end is the epic conclusion of an unprecedented three volume history of the spanish empire from one of the most productive and wide ranging historians of modern times the new york times book review the legacy of imperial spain was shaped by many hands but the dramatic human story of the extraordinary projection of spanish might in the second half of the sixteenth century has never been fully told until now in world without end hugh thomas chronicles the lives loves conflicts and conquests of the complex men and women who carved up the americas for the glory of spain chief among them is the towering figure of king philip ii the cultivated spanish monarch whom a contemporary once called the arbiter

of the world cheerful and pious he inherited vast authority from his father emperor charles v but nevertheless felt himself unworthy to wield it his forty two year reign changed the face of the globe forever alongside philip we find the entitled descendants of new spain s original explorers men who like their king came into possession of land they never conquered and wielded supremacy they never sought here too are the roman catholic religious leaders of the americas whose internecine struggles created possibilities that the emerging jesuit order was well positioned to fill with the sublime stories of arms and armadas kings and conquistadors come tales of the ridiculous the opulent parties of new spain s wealthy hedonists and the unexpected movement to encourage philip ii to conquer china finally hugh thomas unearths the first indictments of imperial spain s labor rights abuses in the americas and the early attempts by its more enlightened rulers and planters to address them written in the brisk flowing narrative style that has come to define hugh thomas s work the final volume of this acclaimed trilogy stands alone as a history of an empire making the transition from conquest to inheritance a history that thomas reveals through the fascinating lives of the people who made it praise for world without end readers will not find a more reliable guide to the maturing spanish empire world without end reminds us that the far flung spanish empire was the work of many minds and hands and by the end their myriad stories carry a cumulative charge the new york times book review a sweeping encyclopedic history of the arrogance ambition and ideology that fueled the quest for empire kirkus reviews literary power is a vital part of a great historian s armoury as in his earlier books thomas demonstrates here that he has this in abundance financial times a vivid climax to hugh thomas s three volume history of imperial spain the telegraph thomas clearly excels in the spanish history of religion politics and culture and successfully shows that spain s global ambition knew no bounds publishers weekly

el centrolista20122015 is written to inspire yes we can hispanic si se puede republican democrat and liberal political warriors to register participate and vote for human first american politics in america today the text in this book consists of my cyberpolitical advice and correspondence to and from president barack obama in our effort to dignify humanity by way of hispanic political power as i see it
