it is nearly two centuries since the first quarto of hamlet was rediscovered yet there is still no consensus about its relationship to the second quarto indeed the first quarto the least frequently read hamlet has been dismissed as corrupt inferior or like a mutilated corpse even though in performance it has been described as the absolute dynamo behind the play currently one hypothesis dominates explanations about the quartos interrelationship supposing that the first quarto published 1603 was reconstructed from memory by one or more actors who had performed minor roles in a version of the second quarto published 1604 5 the present study reports on a detailed linguistic reassessment of the principal arguments for memorial reconstruction the evidence including a three way comparison between the underlying french source in les histoires tragiques and the two quartos and the informal features and specific grammatical aspects and a documented memorial reconstruction in 1779 does not support the dominant hypothesis the cumulative evidence suggests that the earliest scholars to examine the first quarto were right the 1603 hamlet came first and the second quarto is a substantial later revision

the present volume is based on a conference held in october 2019 at the faculty of theology of humboldt university berlin as part of a common project of the australian catholic university the katholieke universiteit leuven and the humboldt university berlin the aim is to discuss the relationships of jews and christians in the first two centuries ce against the background of recent debates which have called into question the image of parting ways for a description of the relationships of judaism and

christianity in antiquity one objection raised against this metaphor is that it accentuates differences at the expense of commonalities another critique is that this image looks from a later perspective at historical developments which can hardly be grasped with such a metaphor it is more likely that distinctions between jews christians jewish christians christian jews etc are more blurred than the image of parting ways allows in light of these considerations the contributions in this volume discuss the cogency of the parting of the ways model with a look at prominent early christian writers and places and suggest more appropriate metaphors to describe the relationships of jews and christians in the early period

publishing public domain and plr books is a numbers racket to some degree it will depend on the niche and the earlier recognition of that author and work the quality on these vary intensely some of the more recent ones are better written and edited now they are coming with high quality covers and source files to edit them fully like public domain there are essentially limitless competition out there with all these copies but also like public domain you will see that mostly they have been poorly edited or poorly marketed and are really no competition at all in east asian tradition an anthology was a recognised form of compilation of a given poetic form in this model which derives from chinese tradition the object of compiling an anthology was to preserve the best of a form and cull the rest

more than any other sport baseball has developed its own niche in america s culture and psyche some researchers spend years on detailed statistical analyses of minute parts of the game while others wax poetic about its players and plays many trace the beginnings of the civil rights movement in part to the major leagues decision to integrate and the words and phrases of the game for example pinch hitter and out in left field have become common in our everyday language from aaron henry onward this book covers all of what might be called the cultural aspects of baseball as opposed to the number rich statistical information so widely available elsewhere biographical sketches of all hall of fame players owners executives and umpires as well as many of the sportswriters and broadcasters who have won the spink and frick awards join entries for teams owners

commissioners and league presidents advertising agents drafts illegal substances minor leagues oldest players perfect games retired uniform numbers superstitions tripleheaders and youngest players are among the thousands of entries herein most entries open with a topical quote and conclude with a brief bibliography of sources for further research the whole work is exhaustively indexed and includes 119 photographs
