this reference tells the stories of the peoples of the ancient past and shows how they laid the foundations of the modern world each of the first five chapters looks at the cultures and civilizations that developed in one particular region the last chapter looks at some general aspects of life in the ancient world such as agriculture or legal codes and examines them in different cultures a time line shows how civilizations in different parts of the world relate to each other in time nicely illustrated with many color images annotation copyrighted by book news inc portland or

a lively and engaging narrative history showing the common threads in the cultures that gave birth to our own this is the first volume in a bold series that tells the stories of all peoples connecting historical events from europe to the middle east to the far coast of china while still giving weight to the characteristics of each country susan wise bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history dozens of maps provide a clear geography of great events while timelines give the reader an ongoing sense of the passage of years and cultural interconnection this old fashioned narrative history employs the methods of history from beneath literature epic traditions private letters and accounts to connect kings and leaders with the lives of those they ruled the result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them

how were the daily lives of the ancient maya different from our daily lives today what problems did they face as an early civilization in the americas questions such as these are answered as readers examine the ancient maya through a close study of their history lifestyle and traditions through well researched main text readers are able to compare and contrast this ancient culture with modern civilizations in addition accessible maps informational fact boxes interesting sidebars a helpful timeline and vibrant full color photographs are included to further explain this essential social studies curriculum topic

a comprehensive introduction to the ancient civilizations that arose in the mediterranean basin with special emphasis on how geographical features shaped their development the book is divided into three sections the eastern empire greece and rome in the first section the reader encounters the civilizations of egypt chaldaea assyria phoenicia and persia learning not only the basis of each civilization but how they interacted with each other and how they changed over time in the second section on greece the rivalry between athens and sparta is highlighted showing clearly the highly divergent cultures of athens and sparta followed by the rise of alexander the great and the conquest of asia turning to rome the reader experiences the growth of rome from its early days to the establishment of the republic then the rise of the roman

empire and its eventual decline ambitions of leading figures are clearly articulated along with the strategies they used to achieve their ends throughout the narrative the author relates findings that expand our understanding of the ancient world archaeological discoveries in troy egypt and pompeii and traces the development of things as foundational to our civilization as our alphabet and our form of government this is the rare history book that is a joy to read that provokes thought on a number of levels and that uses language that is often arresting as when he repeats the words of an arabian conqueror egypt is in succession a mud field a sea of fresh water and a flower garden

most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives one such alternative is provided by marxian economics in recent decades the field has seen tremendous theoretical development and marxian perspectives have begun to appear in public discourse in unprecedented ways this handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of marxian economics its scope is broad ranging from contributions on familiar marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the marxian canon like feminism ecology international migration and epistemology this breadth of coverage reflects the development of marxian economic and social theory and encompasses both the history and the frontiers of current scholarship this handbook provides an extensive statement of the current shape and future direction of marxian economics the routledge handbook of marxian economics is an invaluable resource for students researchers and policy makers seeking guidance in this field it is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history

the coalbed methane cbm reserve in china ranks third in the world with a total resource of 36 8 1012 m3 exploitation of cbm has an important practical significance to ensure the long term rapid development of china natural gas industry therefore in 2002 the ministry of science and technology of china set up a national 973 program to study cbm system and resolve problems of cbm exploration and exploitation in china all the main research results and new insights from the program are presented in this book the book is divided into 11 chapters the first chapter mainly introduces the present situation of cbm exploration and development in china and abroad chapters 2 through 9 illustrate the geological theory and prospect evaluation methods then chapters 10 and 11 discuss cbm recovery mechanisms and technology the book

systematically describes the origin storage accumulation and emission of cbm in china and also proposes new methods and technologies on resource evaluation prospect prediction seismic interpretation and enhanced recovery the book will appeal to geologists lecturers and students who are involved in the cbm industry and connected with coal and conventional hydrocarbon resources research

the title aspires to present a panorama of india s yet to be fully discovered martial heritage denoted by its unconquerable ancient epoch a critique of the generally misread medieval age vicissitudes followed by a survey of the contemporary post independence travails and triumphs not a historical narrative it attempts to define what constitutes india s natural born military mind how it evolved and breasted the world conquering armies followed by critical glimpses of the past ordeals besides its uncelebrated defiance conquests the venture culminates in defining the nation s prospective defence and development policy imperatives for its emerging global role it is rare in providing in one volume india s scintillating perspective of the past present and the future the ardent quest spanning over twelve years is a reflective blend of a review of the vedas the epics relevant shastras other select material of help with the author s long years of rich military operational planning and instructional experience poring over its pages answers many elemental questions coming naturally to a lay reader student research scholar man at arm defence analyst and the policy maker the thesis fills a gap by covering a wide range of archeological historical politico military socio cultural and strategic and warfare issues besides dispelling certain myths which tend to demean india s way of life and war fighting the scrutiny of the post independence wars comes to several untold finds an exclusive study on what motivates men in combat gives the subject an added depth a lucid account of the nuances of the vital subject bolstered by an unflagging perceptive probe makes it an absorbing study

in the book of amos the language about land is used extensively including terms and ideas such as zion yhwh s bringing of israel into the land references to various sanctuaries and places harvest and famine the relationship between the northern kingdom and judah and references to the land of other nations however this subject of the land has never been studied as a theological topic in its own right but only as part of other themes this work follows a synchronic reading of amos and employing textual literary and historical criticism the author carries out a careful theological analysis of the land although the findings are set in the context of the entire book of amos the study focuses on chapters 7 9 to explore the topic with closer detail
