he guides us as he explores our journey through the universe of the new cosmology in the course of his intellectual journey he has opened up
so many new ways by which to view the world and the cosmos that surrounds and embraces us so that we come to feel at home in the universe
he has taught us that we are part of the cosmos that our bodies carry within them all of the elements of the periodic table that derived from the
dust of exploding stars furthermore dick states that all of reality consists of interconnected relationships in motion permeated by a sacred

radiant energy he tells us the four cs of the great story cosmogenesis creativity chaos and compassion in this great story it is we who are the second coming as participants with god as co creators of the ever expanding universe

cosmology is the story we tell ourselves about why we are here in this universe right now we humans find ourselves in a cosmological transformation that is as profound as the radical shift in collective consciousness after we realized that the sun doesn t orbit around the earth we live in a time that collapses time into timelessness we live in a space that doesn t acknowledge boundary the story is changing right now because our knowledge of who we are is changing now is a special time we must re understand humanity its reason for existence and its potential for co participating with evolution the goal in this book is to focus on re writing the story we humans tell ourselves about ourselves or more accurately to recognize the new story as it writes itself through us dr connie cockrell kaplan connie kaplan is a spiritual mentor who lives in southern california raised in texas as a minister s daughter spirituality has been an important foundation for kaplan s life dr kaplan s latest book is the emergence of a new cosmology she has also authored four other books the woman s book of dreams dreams are letters from the soul the invisible garment and a colorful life each of kaplan s books is unique and each shares a new and bountiful body of spiritual information kaplan teaches online where gathers dreamers and spiritual practitioners from around the world who are interested in exploring deep truth and profound practices that offer a profound understanding of their life purpose although she meets regularly with her dream circle in los angeles most of dr kaplan s teaching is done through various forms of computerized media this kind of real time interfacing with people from many countries has proved highly valuable and exciting for all involved for more information go to her website theinvisiblegarment com

given the excellent historical context in which corey frames his case and the rational manner in which he closes off the loopholes the stage is set for paradigm shift in the secular area i highly recommend this book hugh ross astronomer

as seen on bbc breakfast will we ever truly understand our cosmic home this is the story of the technologies that allow us to look up to learn and to discover our place in the cosmos an electrifying new history of the universe hannah fry author of rutherford and fry s complete guide to absolutely everything we are part of an incredible chain of events stretching 13.8 billion years into the past and even further into the future but what does that future hold and how do scientists study the entire universe the universe in a box is andrew pontzen s tribute to simulations the remarkable computer codes that over the last century have allowed us to grasp the distant past and far future of the universe it reveals the stories of pioneering scientists who unlocked the mysteries of the cosmos and reframes our understanding of galaxies black holes and space itself i was enlightened amazed and profoundly impressed sir philip pullman author of his dark materials compelling a veritable treasure chest filled with captivating stories science

the scientists and theologians who play parts in soul god self and the new cosmology stephen hawking matthew fox ilya prigogine paul davies john polkinghorne david griffin john rodwell david schramm rowan williams brian swimme alan guth steven weinberg frank tipler arnold mandell

roger penrose danah zohar thomas berry

in this book award winning author stephen hawley martin issues a challenge to scientists by asking which of you will go down in history as the one who worked out the math and presented the calculations that prove this new theory of creation martin outlines the structure and implications of the theory and provides scientific findings to support it writing that he believes the cosmology presented not only eventually will be proven and accepted it will be common knowledge within a hundred years he writes that the result will be that all human beings will come to view themselves and their place in the universe in a new way that will be a boon not only to each individual but to civilization as a whole
