doctoral thesis dissertation from the year 2023 in the subject engineering indian institute of technology delhi language english abstract over the recent few years optical wireless communication owc has attracted significant attention in both academia and the research community contrary to radio frequency rf systems the spatial confinement of the optical beams makes the owc system a potential system offering higher data rates and secured communication owc systems and applications in several areas such as terrestrial outdoor free space optical fso communication indoor and outdoor visible light communication vlc etc for the terrestrial outdoor fso systems spatial diversity techniques are employed over fso links to enhance the diversity and overall performance to this end the spatial diversity techniques corresponding to the state of the art are repetition coding rc transmit laser selection tls and orthogonal space time block codes note that tls is the optimal transmission scheme in the fso systems in this dissertation we name the conventional tls scheme as a single tls stls scheme however the performance of the conventional stls scheme is highly dependent on the feedback errors on the other side the outdoor vlc finds applications in vehicle to vehicle v2v communications infrastructure to vehicle i2v communications etc emphasizing the state of the art corresponding to the outdoor v2v vlc systems there is a lack of comprehensive modeling and performance investigation under the adverse challenges of the outdoor vlc environment moreover to address the challenges of the next generation based outdoor intelligent transportation systems its on an indoor testbed design for an outdoor i2v vlc system is still missing in order to enhance the diversity and overall performance of the terrestrial outdoor fso systems the study begins by proposing two novel tls schemes we call the proposed schemes as two tls ttls and modified error tolerant weighting scheme metws note that the conventional stls scheme gives optimal performance under a perfect feedback scenario however its performance degrades significantly under an imperfect feedback scenario to this end the two proposed schemes overcome the practical limitations of the conventional stls scheme moreover we analyze the performance of the two proposed schemes for both perfect and imperfect channel state information csi based communication scenarios further different performance metrics such as bit error rate ber diversity gain etc are thoroughly analyzed furthermore to gain more insight

one of the most authoritative and comprehensive books on adobe's acrobat and pdf portable document format by the leading acrobat guru enhanced and expanded to cover the latest release of acrobat features complete coverage of using acrobat and pdf for print prepress the internet cd roms and all the new media packed with real world insights and techniques gained from the author's daily use of acrobat and pdf under deadline situations acrobat and its file format pdf have become the standard for portable documents including everything from high resolution color files destined for print to internet and e book content more than 200 million copies of acrobat reader have been downloaded for use on all popular operating systems cd rom features an interactive bookmarked and indexed acrobat interface a searchable pdf version of the book and scores of useful plug ins and trial software

in an ever increasing domain of activity amino acids peptides and proteins provides an annual compilation of the world's research effort into this important area of biological chemistry comprising a comprehensive review of significant developments at this biology chemistry interface each volume opens with an overview of amino acids and their applications work on peptides is reviewed over several chapters ranging from

current trends in their synthesis and conformational and structural analysis to peptidomimetics and the discovery of peptide related molecules in nature the application of advanced techniques in structural elucidation is incorporated into all chapters whilst periodic chapters on metal complexes of amino acids peptides and beta lactams extend the scope of coverage efficient searching of specialist topics is facilitated by the sub division of chapters into discrete subject areas allowing annual trends to be monitored all researchers in the pharmaceutical and allied industries and at the biology chemistry interface in academia will find this an indispensable reference source volume 36 covers literature published during 2003
