priestly ministry in the church of england needs a radical rethink george herbert died in 1633 his legacy continues his poems are read and sung and his parish ministry remains the model for the church of england s understanding of how and where and why its priests should minister but there is a problem the memory of herbert celebrated by the church is an inaccurate one and in its inaccuracy is unfair on herbert himself and his successors in the ordained ministry this is a book of the long view it sets out to assess realistically the context of herbert s life and to explore the difficulties of parish life today by examining the status and

role of parish clergy since herbert s time and today it draws on the work of historians social anthropologists psychologists and theologians and presents their ideas in a readable and passionate style it argues that the future strength of parochial ministry will be found in a recovery of historic renewed understandings of priestly ministry and concludes by outlining more sustainable patterns of practice for the future in a climate of uncertainty for the future of the church it will be an encouragement for priest and people and welcomed by both
