for centuries travelers have made central asia known to the wider world through their writings in this volume scholars employ these little known texts in a wide range of asian and european languages to trace how central asia was gradually absorbed into global affairs the representations of the region brought home to china and japan india and persia russia and great britain provide valuable evidence that helps map earlier periods of globalization and cultural interaction

definitions of inner asia vary greatly inner asia includes those lands that have linked the major agrarian civilisations of eurasia from china to india to the mediterranean and europe since the late neolithic period in the 19th century it became customary to refer to the trade routes between these regions as the silk roads but silk was just one of the goods exchanged through inner asia religions diseases coins cuisines artistic fashions political titles all travelled the silk roads as did buddhism christianity manichaeism and islam seen in this way inner asia appears as the central knot in the vast tapestry of eurasian history to take inner asian history seriously is to see the underlying unity of eurasian history
