in this pioneering new work based on a thorough re reading of primary sources and new research in the austrian state archives franz szabo presents a fascinating

reassessment of the continental war professor szabo challenges the well established myth that the seven years war was won through the military skill and tenacity of the king of prussia often styled frederick the great instead he argues that prussia did not win but merely survived the seven years war and did so despite and not because of the actions and decisions of its king with balanced attention to all the major participants and to all conflict zones on the european continent the book describes the strategies and tactics of the military leaders on all sides analyzes the major battles of the war and illuminates the diplomatic political and financial aspects of the conflict

at its core coping with life during the thirty years war 1618 1648 explores how people tried to survive the thirty years war on what resources they drew and how they attempted to make sense of it a rich tapestry of stories brings to light contemporaries trauma as well as women and men s unrelenting initiatives to stem the war s negative consequences through these close ups sigrun haude shows that experiences during the thirty years war were much more diverse and often more perplexing than a straightforward story line of violence and destruction can capture life during the thirty years war was not a homogenous vale of gloom and doom but a multifaceted story that was often heartbreakingly yet at times also uplifting

a deadly continental struggle the thirty years war devastated seventeenth century europe killing nearly a quarter of all germans and laying waste to towns and countryside alike peter wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world when defiant bohemians tossed the habsburg emperor s envoys from the castle windows in prague in 1618 the holy roman empire struck back with a vengeance bohemia was ravaged by mercenary troops in the first battle of a conflagration that would engulf europe from spain to sweden the sweeping narrative encompasses dramatic events and unforgettable individuals the sack of magdeburg the dutch revolt the swedish militant king gustavus adolphus the imperial generals opportunistic wallenstein and pious tilly and crafty diplomat cardinal richelieu in a major reassessment wilson argues that religion was not the catalyst but one element in a lethal stew of political social and dynastic forces that fed the conflict by war s end a recognizably modern europe had been created but at what price the thirty years war condemned the germans to two centuries of internal division and international impotence and became a benchmark of brutality for centuries as late as the 1960s germans placed it ahead of both world wars and the black death as their country s greatest disaster an understanding of the thirty years war is essential to comprehending modern european history wilson s masterful book will stand as the definitive account of this epic conflict for a map of central europe in 1618 referenced on page xvi please visit this book s page on the harvard university press website

this thoroughly revised new edition of geoffrey parker s classic text incorporates the latest research about this central episode of early modern history judicious lively

enlightening times literary supplement

more than three and a half centuries have passed since the peace of westphalia ended the thirty years war 1618 48 but this most devastating of wars in the early modern period continues to capture the imagination of readers this book reveals why it was one of the first wars where contemporaries stressed the importance of atrocities the horrors of the fighting and also the sufferings of the civilian population the thirty years war remains a conflict of key importance in the history of the development of warfare and the military revolution

since ancient times there have been military operations that attempted to produce tectonic shifts in the balance of power in this volume historians demonstrate how knowledge of past military operations can inform current policy discussions by analyzing conflicts between dominant states and the rising powers who seeks to contest their hegemony what might a conflict between the united states and its main rival china look like in the years ahead what factors are important for strategists to consider paul a rahe considers the rival ambitions between sparta and athens barry strauss explores the punic wars fought by carthage and rome edward n luttwak examines a decisive military campaign between the byzantine empire and its nemesis the sasanians peter r mansoor describes the emergence of sweden as a military might under the leadership of gustavus adolphus andrew roberts studies the expansion of french power during napoleon s italian campaign michael r auslin formulates a hypothetical conflict between china and the united states in the year 2025 each of these conflicts offers important lessons about the behaviors of ascendant powers and the responses they provoke

this work the first of a two volume set brings together essays of european and american scholars on the wider regional and topical aspects of the hundred years war as well as articles that revisit questions posed and supposedly solved by traditional hundred years war scholarship
