the shining ones were members of an advanced culture that was almost lost but their wisdom and their power survived they preserved the secrets of their advanced knowledge in mythology and legend they embedded their secret codes in symbolism in art architecture the mystery traditions and literary works including the bible the authors have found traces of the influence of the shining ones in all the major religions with roots in the ancient world gardiner and osborn have discovered that their secrets and rituals have been hidden and preserved through the centuries by the knights templar the rosicrucians and the freemasons to the present day furthermore they believe that the evolution of civilization has been manipulated by a secret and powerful group of initiates descended from the shining ones they can identify their influence behind science religion mysticism and philosophy and of course in the arena of powerful politics

this is an extraordinary story of intrigue and power play at a very human and political level but it is also the revelation that the shining ones had knowledge of the deep spiritual truth that lies at the heart of mankind's yearning for an understanding of the meaning of life and to achieve salvation

for many years now there has been an upsurge in revelation stories and alternative viewpoints on man's history people such as graham hancock and lawrence gardner have brought to light many new ideas and many new problems now there is a new theory which is all encompassing and clearly brings into focus a more sinister reason behind the emergence of civilisation in his theory on atlantis graham hancock is receiving much admiration and academic acclaim standard academic thought is more towards the spontaneous eruption of civilisation across the globe with little or no explanation of why there are so many similarities between the cultures now philip gardiner in his new book the shining ones is set to turn even this upon its head the theory is so simple that it begs the question why has it not been thought of before the reason for universal similarity of architecture language art travel and religious belief is quite simply an ancient and secret religious brotherhood who have hidden themselves deep within the symbols ciphers and codes of our ancient texts for hundreds of years they held a secret knowledge and power base which spread with them across the globe the very title that they have given themselves is hidden within the standard text and religious books we use every day the shining ones put like this the whole thing can sound like an x files conspiracy theory however the author has invested huge amounts of time and energy checking researching and seeking the advice of academics now the theory is attracting the attention of historians who can see that the patterns are as subtle as this author proposes the fact is this theory does explain away all the problems with dating and variations that people such as hancock have come up against many academics and especially egyptologists are now turning to this way of thinking and with gardiners spirit and broad knowledge in history and language the history of the ancients and the secrets that they hold are becoming more clear there are of course dissenters the author has been accosted for his standpoint and there are still those hardened academics and even non academics who refuse to even listen however there is a major tv documentary in pre production stages and with interviews planned across the nation on radio and tv the message may soon be accepted as a credible theory

departure from the garden represents the maiden flight of humanity from its earliest beginning with ancestors from the stars the ancestor races evolved from the same universal code from which the oldest human species grew many of whom have now left human evolution behind them to climb to even greater states within the universal code the most ancient emblem on earth observed in modern ufo contact guides the search for native america's ancestors those who returned to mexico in 1991 in the most extensive ufo activity in modern history traces of native america's ancestors the ancient astronauts have often been dismissed as too impossibly ancient to believe and it is the factor of what can be perceived as reality or truth that is followed in this search for humanity through the manifestation of mind and the shamanic perspective in north america's oldest pyramids recent scientific discovery of super continents and new excavations at gobekli tepe in turkey are examined in light of traditional lore from the remote corners of the earth the search for the people of life those who opened the tree of life to repopulate native america leads through earth's oldest cultures egypt greece india tibet and mu the motherland

over 75 of the people who live on this planet are followers of one of the three major monotheistic religions they all consider abraham as the father of their race and religion they all believe in one singular all powerful all knowing benevolent god the hebrew call him yahweh the christians refer to him as father or lord and muslims call him allah and yet millions and millions of people have been murdered maimed and tortured by the followers of this single entity to prove that their version of this single god is better than the other two versions sounds ridiculous and yet sadly enough more people have died in the name of religion than any other cause in the history of humanity each and every one of us at one time or another has asked or thought about such fundamental questions as is there a god where did humans come from why out of millions of species on earth only humans reached this level of sophistication is there a life after death is there a purpose to life why are we here are the scriptures truly the words of god more importantly is there any way we could find answers to such questions the fact is the answer to most of these questions and many more that we thought unanswerable have been written down on clay tablets by our ancient ancestors who lived in mesopotamia over 7000 years ago these records are readily available to those who are willing to step outside the dogmatic belief system of the establishment and are prepared mentally and spiritually to tolerate a totally different rendering of the oldest written historical records about mankind s origin purpose and the truth about god our maker the subject matter of this book is an attempt to investigate the circumstances under which mankind was made and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion this is done primarily by relying on our scriptural texts particularly the old testament as well as other ancient manuscripts such as sumerian akkadian and babylonian creation and genesis epics the first chapter begins by examining the behaviour commands and instructions given by yahweh to his chosen people these commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies past and present the question is then asked how could an entity powerful enough to have created the entire universe issue such cruel and sadistic commands against some of his own creations furthermore yahweh s behaviour is decidedly pro hebrew and shows no regards or thought about non hebrew masses how could the universal god show such bias towards a tiny fraction of his creatures with total disregard for the rest finally the characteristics and personalities of yahweh is analysed by scrutinising his behaviour actions and directives as stated in the old testament before examining the god of christianity in investigating the role and characteristics of god in christianity the first thing that immediately becomes apparent is the absence of a prominent role for god the father as we had witnessed in judaism the christians or more specifically saint paul who was the founder and designer of christianity as we know it today in order to distance his creation from the hebrews and religion of yahweh invented a new godhead and named him jesus christ ancient greek ḥριστος born of a virgin with powers to heal the sick give sight to the blind and even raise the dead who was crucified but resurrected three days later these were all characteristics borrowed from various religions and cults prevalent at the time in the levant from mithraism to the cult of apoll
