beyond his pivotal place in the history of scientific thought charles darwin s writings and his theory of evolution by natural selection have also had a profound impact on art and culture and continue to do so to this day the literary and cultural reception of charles darwin in europe is a comprehensive survey of this enduring cultural impact throughout the continent with chapters written by leading international scholars that explore how literary writers and popular culture responded to darwin s thought the book also includes an extensive timeline of his cultural reception in europe and bibliographies of major translations in each country

in the early 1800s a century before there was any concept of the gene physicians in insane asylums began to record causes of madness in their admission books almost from the beginning they pointed to heredity as the most important of these causes as doctors and state officials steadily lost faith in the capacity of asylum care to stem the terrible increase of insanity they began emphasizing the need to curb the reproduction of the insane they became obsessed with identifying weak or tainted families and anticipating the outcomes of their marriages genetics in the madhouse is the untold story of how the collection and sorting of hereditary data in mental hospitals schools for feeble-minded children and prisons gave rise to a new science of human heredity in this compelling book theodore porter draws on untapped archival evidence from across europe and north america to bring to light the hidden history behind modern genetics he looks at the institutional use of pedigree charts censuses of mental illness medical social surveys and other data techniques innovative quantitative practices that were worked out in the madhouse long before the manipulation of dna became possible in the lab porter argues that asylum doctors developed many of the ideologies and methods of what would come to be known as eugenics and deepens our appreciation of the moral issues at stake in data work conducted on the border of subjectivity and science a bold rethinking of asylum work genetics in the madhouse shows how heredity was a human science as well as a medical and biological one jacket

this book sheds light on the intricate relationship between geopolitics and business and the essential interdependence between corporations and geopolitics despite apparent animosity practical solutions and theories proposed by geopolitics find resonance within the business world and vice versa concepts like critical theory disruption hegemony strategic rivalry and cost effectiveness hold common ground in both realms even though they have historically been disregarded geopolitical authors have often overlooked the vital role played by businesses in shaping global affairs while businesses themselves view geopolitics as a risk to be managed these contrasting viewpoints have given rise to misunderstandings and misconceptions between the two spheres the author sets out to bridge the gap between geopolitics and business exploring how corporations perceive space state and power while also analyzing the influence of classical critical and feminist geopolitics on business strategies this comprehensive analysis reveals that businesses are not mere non state agents among many but indeed the principal non state agents in geopolitics the book is an essential read for scholars researchers and professionals seeking a deeper understanding of the dynamic interplay between these critical forces

how does order emerge out of the multiplicity of bodies objects ideas and practices that constitute the urban this book explores the relation between space law and control in the contemporary city and particularly in the context of urban mega events through a combined geographical and normative analysis informed by the recent spatial affective and material turns in the humanities and social sciences andrea pavoni addresses this question by pursuing an innovative and trans disciplinary approach capable of accounting for the emergence of order in urban space both at the conceptual and empirical levels two overarching objectives are pursued first to account for the increasing convergence of logics techniques and technologies of law security and marketing into novel potentially oppressive spatial configurations second to envisage a consistent ethico political strategy to counter this evolution by rethinking originally and in radically spatial terms the notion of justice forging a sophisticated and original analysis this book offers an analysis that will be of considerable interest to those working in critical urban geography critical legal studies critical event studies surveillance and control studies

this set traces herbert spencer s influence from his contemporaries to the present day contributions come from across the social science disciplines and are often taken from sources which are difficult to access

the english philosopher herbert spencer 1820 1903 was a colossus of the victorian age his works ranked alongside those of darwin and marx in the development of disciplines as wide ranging as sociology anthropology political theory philosophy and psychology in this acclaimed study of spencer the first for over thirty years and now available in paperback mark francis provides an authoritative and meticulously researched intellectual biography of this remarkable man that dispels the plethora of misinformation surrounding spencer and shines new light on the broader cultural history of the nineteenth century in this major study of spencer the first for over thirty years mark francis provides an authoritative and meticulously researched intellectual biography of this remarkable man using archival material and contemporary printed sources francis creates a fascinating portrait of a human being whose philosophical and scientific system was a unique attempt to explain modern life in all its biological psychological and sociological forms herbert spencer and the invention of modern life fills what is perhaps the last big biographical gap in victorian history an exceptional work of scholarship it not only dispels the plethora of misinformation surrounding spencer but shines new light on the broader cultural history of the nineteenth century elegantly written provocative and rich in insight it will be required reading for all students of the period

presents information about the works and publications of herbert spencer 1820 1903 an english philosopher lists his published works includes information and excerpts from his works man versus state and first principles

based on his correspondence a 1908 biography of one of the late nineteenth century s most influential and controversial thinkers
