this book is a comparative study in the hermeneutics of the ancient interpretations of the biblical joseph story assuming that every interpretation results from a creative encounter between the ultimately open text of scripture and the specific thought world of the interpreter it examines the particular way in which each exegete construes the biblical outline of joseph s character paying special attention to the literary nature of the sources the study begins with an analysis of the narrative methods and the hermeneutic potential of the biblical story and then proceeds to the inter testamental evidence the central concern of this study is to compare the different interpretations of the philosopher philo the historian josephus and the midrash genesis rabbah these sources do not only range over a considerable amount of time but significantly derive respectively from the greek and hebrew cultural realm consequently their figures of joseph fulfil distinctly different purposes ranging from an idealisation of joseph as a hellenistic politician to autobiographical apologetics and religious instruction

inside the covers of this book you will find the real scriptures of the christian churches many church leaders know that other christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books it isnt in the canon of scripture formed of course by the early catholic church at various stages and councils from the fourth century a d therefore no one has the right to change what is in the canon of scripture and the catholic church changed it in their councils not in agreement of other christians but to hide their offence at the words of god they would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the catholic church and its priests but other priests must be considered demented or apostate but they are not affected by the changes they made to the canon of scripture over many centuries they will not consider the canons of orthodox churches or others

because they vary in different regions of the world so is european christianity based in the vatican city right about all its holy scriptures while everyone elses church scriptures are false scriptures ethiopia it seems got most books of scripture right even with their translation into an ancient language
