use these interventions and treatments to help people with mental health problems and their families family therapy and mental health innovations in theory and practice explores the application of family therapy approaches to the treatment of a variety of mental health problems a variety of treatment modalities are used with patients and their families to address these problems including family psychoeducational approaches the mcmaster model cognitive behavioral family therapy brief therapy and systemic and narrative approaches each chapter of family therapy and mental health examines the gender and cultural issues that are relevant to the population and model it describes and includes a case example in addition each chapter describes how the model is integrated with psychiatric services and examines the use of medication in each case for complete contents and to see our distinguished roster of contributors please visit our site at haworthpress.com this volume presents a variety of family therapy approaches to conditions that include schizophrenia bipolar disorder anxiety depression personality disorders suicide addiction there are also complete chapters describing family therapy approaches to special issues such as women and mental health brain injury aging the text of family therapy and mental health innovations in theory and practice is written with a strong clinical focus and will be helpful and informative for frontline clinicians as well as students in graduate programs the book s broad range covering the mental health issues that clinicians typically encounter in the real world ensures that they will find information they can use today and every day and wisdom that students can carry with them through their careers

first published in 1988 this thought provoking volume offers a constructive critical analysis of family therapy for its neglect of the self in the system and provides a therapeutic approach to clinical problems that takes into account both individual and family dynamics the author shows that by elevating the metaphor of the system to dogma family therapy has lost sight of much of the richness and complicating influence of personal feeling motivation and conflict resulting in a proliferation of esoteric abstract theories and highly mechanistic technical interventions the self in the system describes a different reality that is often overlooked no matter how much their behavior is coordinated within the system family members remain separate individuals with private hopes and ambitions motives and expectations quirks and foibles and potentials for creative work this book provides a unique approach that develops a better understanding of family members individual experiences and helps in enhancing their personal responsibility and ability to solve their own interactional problems within the family system the approach however is not just another version of psychoanalytic family therapy but rather one that

utilizes the best tools of family therapy and the most useful ideas from individual psychology and psychodynamic psychotherapy chapters cover such important topics as finding the family and losing the self the problem of change working with interaction the effective use of empathy making assessments that include both the whole family system and the psychology of its members interactional psychodynamics a practical guide to object relations theory how to develop understanding and working with resistance

doug sprenkle awarded the american family therapy academy a 2010 award for distinguished contribution to family therapy research and practice grounded in theory research and extensive clinical experience this pragmatic book addresses critical questions of how change occurs in couple and family therapy and how to help clients achieve better results the authors show that regardless of a clinician's orientation or favored techniques there are particular therapist attributes relationship variables and other factors that make therapy specifically therapy with couples and families more or less effective the book explains these common factors in depth and provides hands on guidance for capitalizing on them in clinical practice and training user friendly features include numerous case examples and a reproducible common factors checklist

annotation the third edition of an introduction to family therapy provides an overview of the core concepts informing family therapy and systemic practice covering the development of this innovative field from the 1950s to the present day the book considers both british and international perspectives and includes the latest developments in current practice regulation and innovation looking at these developments within a wider political cultural and geographical context the third edition also contains a new chapter on couple therapy a new chapter on practice development up to 2009 sections highlighting the importance of multi disciplinary practice in health and welfare lists of key texts and diagrams suggested reading organized by topic and practical examples and exercises are also used in order to encourage the reader to explore and experiment with the ideas in their own practice this book is key reading for students and practitioners of family therapy and systemic practice as well as those from the fields of counselling psychology social work and the helping professions who deal with family issues

this cutting edge second edition of the craft of family therapy revisits some of salvador minuchin's most famous cases guiding trainee therapists through basic techniques and ideas while illuminating the unique voice of minuchin as the founder of structural family therapy the book begins by teaching readers the fundamentals of family therapy through the lens of rich commentary from salvador minuchin on some of his most interesting cases it then moves on to three detailed supervision transcripts from minuchin's former students illustrating the struggles fears and insecurities that new family therapists face and how they can overcome them in a new ground breaking third section reiter and borda share their own lessons from minuchin as well as expand his influential ideas emphasizing a strength based family therapy approach written in an accessible practical style the craft of family therapy 2nd edition draws on a wealth of fascinating case examples to bring minuchin's theory and experience to today's family therapists and psychotherapists in practice and training

a comprehensive user friendly guide to marriage and family therapy that takes a holistic view to look at people within the context of their environment family therapy helps students understand the process of shifting from an individual psychology paradigm to a cybernetic or systems paradigm the text is divided into three sections the systemic framework the practice of family therapy and the systemic practitioner and it includes historical information current developments and ongoing debates various family and developmental theories are examined the family therapy models considered include psychodynamic natural systems experiential structural communications strategic behavioral cognitive and several post

modern approaches assessment intervention training and supervision research and epistemological challenges are discussed within the context of practice learning goals upon completing this book readers will be able to describe and compare various family therapy models discuss practical applications for different family and developmental theories review and assess unique family systems to determine the appropriate family therapy model understand how concepts with the same name differ in meaning at different levels i e 1st order versus 2nd order cybernetics

there are many different models of marriage and family therapy the challenge for students and beginning practitioners is deciding which one best suits their individual purposes this highly practical volume elucidates the defining characteristics of 14 contemporary models including their history views of change views of family and the role of the therapist and methods of assessing family dynamics goal setting facilitating change and knowing when to terminate each chapter also includes a template for implementing therapy models and realistic case studies many drawn from actual practice to illustrate how each model would address common issues in addition the volume includes extensive interviews with master therapists such as albert ellis insoo kim berg sue johnson susan mcdaniel derald wing sue and many others they share their ideas of the ways in which change occurs how they set goals and how they perform therapy for further clarification each therapist illustrates how he she would proceed via the same case study learning how to perform effective family therapy can be an arduous process of trial and error yet this resource will ease the way for students and currently practicing family therapists who need to revisit the basics modalities included bowen family systems theory contextual family therapy cognitive behavioral family therapy models rational emotive behavior therapy symbolic experiential family therapy satir human validation process model milan systemic family therapy structural family therapy strategic family therapy solution focused brief therapy with families narrative therapy with families emotionally focused therapy medical family therapy family psychoeducation key features introduces the theory history theoretical assumptions techniques and components of each model includes a template for using each model from the initial meeting through assessment intervention and termination provides numerous interviews with master therapists includes case study commentary and analysis by master therapists suggests questions therapeutic strategies and or comments to consider for each therapeutic phase includes a personality inventory to help readers select the most effective modality
