the art of public speaking by j berg esenwein and dale carnagey acquiring confidence before an audience complete public speaking course new edition brand new copy the efficiency of a book is like that of a man in one important respect its attitude toward its subject is the first source of its power a book may be full of good ideas well expressed but if its writer views his subject from the wrong angle even his excellent advice may prove to be ineffective this book stands or falls by its authors attitude toward its subject if the best way to teach oneself or others to speak effectively in public is to fill the mind with rules and to set up fixed standards for the interpretation of thought the utterance of language the making of gestures and all the rest then this book will be limited in value to such stray ideas throughout its pages as may prove helpful to the reader as an effort to enforce a group of principles it must be reckoned a failure because it is then untrue it is of some importance therefore to those who take up this volume with open mind that they should see clearly at the out start what is the thought that at once underlies and is builded through this structure in plain words it is this training in public speaking is not a matter of externals primarily it is not a matter of imitation fundamentally it is not a matter of conformity to standards at all public speaking is public utterance public issuance of the man himself therefore the first thing both in time and in importance is that the man should be and think and feel things that are worthy of being given forth unless there be something of value within no tricks of training can ever make of the talker anything more than a machine albeit a highly perfected machine for the delivery of other men s goods so self development is fundamental in our plan
