this book is an in depth interpretation of max weber as a political theorist of civil society on the one hand it reads weber s ideas from the perspective of modern political thought rather than the modern social sciences

on the other it offers a liberal assessment of this complex political thinker without attempting to apologize for his shortcomings through an alternative reading of weber s religious epistemological and political writings the book shows weber s concern with public citizenship in a modern mass democracy and civil society as its cultivating ground kim argues weber s political thought thus recast was deeply informed by kant hegel nietzsche and other german political thinkers and also reveals an affinity to the liberal republican tradition best represented by mill and tocqueville kim has effectively resuscitated weber as a political thinker for our time in which civic virtues and civil society have once again become one of the dominant issues

through the use of a wide variety of methodological and theoretical perspectives the family scholars in this volume provide considerable insight into the ways in which families are changing adapting and evolving with research studies from around the world it is intended to provide a more global understanding of family change

it was traditionally said that clothes maketh the man but what codes and meanings are associated with dress in a society that consists of divisions between class race gender family status and religion is social and cultural life still fundamentally themed by the clothes that we wear if so how should we read these codes and themes in order to decipher their relation to power and meaning this exhaustive book demonstrates how dress shapes and is shaped by social processes and phenomena such as beauty time the body the gift exchange class gender and religion it does this through an analysis of topics like the islamic clothing controversy in state schools the multitude of identities associated with dress the dress reform movement the construction of the body in fashion magazines and the role of the internet in fashion what emerges is a trenchant sharply observed account of the place of dress in contemporary society the book will be of interest to students and researchers in sociology cultural studies women s studies gender studies anthropology and fashion studies

this book takes an in depth look at the integration of fashion and philosophy it challenges the deeply rooted

prejudice or misconception that fashion is a field limited to body oriented and appearance related themes and practices it also reveals that fashion is intermeshed with distinctively modern issues that belong to the realm of the mind as well as the body in doing so it refashions philosophy and philosophizes fashion which ultimately amount to the same thing the book argues that while the philosophization of fashion can give a clearer understanding of some esoteric areas of philosophy and fashion's close connection to modern societies and politics it also shows that philosophy can assist in redeeming fashion from the objective bodily world positioning it as an indispensable part of the humanities this is because fashion manifests critical aspects of human culture in our time and is an expression of the zeitgeist which is interwoven with the unfolding of history this book will be highly relevant to students and researchers in fashion studies who are looking for the theoretical underpinnings and insights for their own work it will also be of keen interest to scholars in the field of philosophy who are seeking to apply philosophical concepts to both everyday life and our empirical world

roland barthes was one of the most widely influential thinkers of the 20th century and his immensely popular and readable writings have covered topics ranging from wrestling to photography the semiotic power of fashion and clothing were of perennial interest to barthes and the language of fashion now available in the bloomsbury revelations series collects some of his most important writings on these topics barthes essays here range from the history of clothing to the cultural importance of coco chanel from hippy style in morocco to the figure of the dandy from colour in fashion to the power of jewellery barthes acute analysis and constant questioning make this book an essential read for anyone seeking to understand the cultural power of fashion

social science an introduction to the study of society 16e approaches social science from a common sense perspective rather than from a conventional social science angle readers will see how seemingly diverse disciplines intermingle anthropology and economics for example the goal of the book is to teach students

critical thought and problem solving skills that will allow them to approach social issues in an unbiased manner new to this edition are significant updates on race and the police more comparison contrasts of deviance and criminality alternative pathways in criminal justice new technology such as self driving cars gay marriage american political dynasties refugee and immigration issues in europe globally american political dynasties china s growing power new trade initiatives states in the middle east nuclear arms control expanded web based ancillaries for students and teachers
