excerpt from history of religion a sketch of primitive religious beliefs and practices and of the origin and character of the great systems this book makes no pretence to be a guide to all the mythologies or to all the religious practices which have prevailed in the world it is intended to aid the student who desires to obtain a general idea of comparative religion by exhibiting the subject as a connected and organic whole and by indicating the leading points of view from which each of the great systems may best be understood a certain amount of discussion is employed in order to bring clearly before the reader the great motives and ideas by which the various religions are inspired and the movements of thought which they present and the attempt is made to exhibit the great manifestations of human piety in their genealogical connection the writer has ventured to deal with the religions of the bible each in its proper historical place and trusts that he has not by doing so rendered any disservice either to christian faith or to the science of religion it is obvious that in a work claiming to be scientific and appealing to men of every faith all religions must be treated impartially and that the same method must be applied to each of them about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
