introduction to spanish translation is designed for a third or fourth year college spanish course it presents the history theory and practice of spanish to english translation with some consideration of english to spanish translation the very

successful first edition of the text evolved from the author s experiences in two decades of teaching translation in the department of language and foreign studies of the american university the emphasis is on general material to be found in current journals and newspapers although there is also some specialized material from the fields of business the social sciences and literature the twenty four lessons in the text form the basis for a fourteen week semester course this newly revised edition contains an index a glossary examples of cognates and partial cognates and translation exercises for each lesson

edited by philip a noss sixteen biblical scholars linguists theorericians and translation professionals have collaborated to present an overview of the bible translation from the time of the septuagint the targums and the latin vulgate through the reformation and counter reformation and into the present day when mother tongue speakers have replaced the missionary translators of the colonial era this is the inaugural volume in a series of monographs paper back 542 pages

as translation involves more than mere mechanics but as a discipline tied to cultural understanding translators must focus on the dissimilarities and incongruities between the source and target societies as well as their languages francisco castro paniagua has written a book that will enable those involved in this process to begin to understand the differences between the anglo saxon and hispanic cultures in a more cohesive manner drawing from lévi strauss paz hymes among others the author focuses first on a general theory of the two cultures and then discusses their most basic traits the work concludes by analyzing the published translations of two works
