this practical detailed book is the most complete and comprehensive guide to structured cable systems it presents the fundamentals of electric and fibre optic cables as well as all the practical aspects combined with additional reference information on technical data and terms in an appendix

the physical linkages responsible for carrying a company's data continue to be the most neglected components of the typical network to the extent that nearly 70 of all network related problems result from poor cabling in this third edition of a widely acclaimed resource three networking experts

share their extensive experience teaching you the cabling skills you need to build a reliable efficient and cost effective network cabling infrastructure as you master these techniques you ll learn to avoid common pitfalls and troubleshoot problems as quickly as they arise coverage includes choosing the right cables and components for your network architecture and topology avoiding unnecessary and unexpected costs understanding the current limitations of data communications and network cabling understanding how laws and building codes constrain cabling understanding the function and importance of universal cabling standards determining when you have a cabling related network problem assembling a complete cabling toolkit integrating voice and data on the same cable system setting up an infrastructure in which desktops printers copiers and other nodes share cabling understanding issues of bandwidth impedance resistance attenuation crosstalk capacitance propagation delay and delay skew working effectively with usb and firewire knowing when to discard legacy cabling and begin anew documenting your cabling creating an rfp and selecting a vendor

the emergence of quality of service qos mechanisms continues to propel the development of real time multimedia services such as voip and videoconferencing however many challenges remain in achieving optimized standardization convergence network design for ip convergence is a comprehensive global guide to recent advances in ip network implementation providing an introduction to basic lan wan man network design the author covers the latest equipment and architecture addressing qos policies and integration of services among other topics the book explains how to integrate the different layers of reference models and various technological platforms to mirror the harmonization that occurs in the real world of carrier networks it furnishes appropriate designs for traditional and critical services in the lan and carrier networks both man and wan and it clarifies how a specific layer or technology can cause those services to malfunction this book lays a foundation for understanding with concepts and applicability of qos parameters under the multilayer scheme and a solid explanation of service infrastructure it goes on to describe integration in both real time and not real time elaborating on how both processes can co exist within the same ip network and concluding with the designs and configurations of service connections learn how to overcome obstacles to improve technology this sweeping analysis of the implementation of ip convergence and qos mechanisms helps designers and operators get past key obstacles such as integrating platform layers and technologies and implementing various associated qos concepts to improve technology and standards

covering major standards and relevant design issues this book explains how to specify install and test a modern reliable structured cabling system and analyzes the terminology and physics behind the standards the author empowers the reader with the skills required to read and understand standards and address problems raised by the need to design procure install and test a modern cabling system using both copper and optical fiber cable technology he thoroughly discusses the technology and the vast number of standards that accompany it the material is based on the design recommendations of iso iec 11801 the appendix lists relevant standards and provides contacts for standards organizations
