mr fosdick has written a biography in its formal meaning fully documented chronologically precise and not simply a personal tribute to a friend of more than forty years standing the book in consequence is both biography and history satisfying all the rigorous canons of personal and social analysis it is to be read as part of the history of our time and as the record of a man of as much consequence to us as have been those other leaders and creators among his contemporaries who have affected public conduct what we have here then is the narrative of a rich man who overcame the almost impossible handicaps of great wealth limited religious upbringing and a narrow and protective family circle he might have become defensive and suspicious or a recluse cultivating private and expensive hobbies or a popular leader and therefore a demagogue such patterns of the behavior of men of inherited fortunes are familiar throughout history but instead he was able to grow and to assume great national obligations what might have been a puzzle slowly disappears under mr fosdick s skillful scholarship and his deep regard for his friend the young rockefeller he is called throughout the book jdr jr as early as 1910 when he was 36 severed his direct connections with business did he do so because of a real or unconscious rejection of his father quite the contrary father and son early forged strong bonds of mutual affection and respect but while there never was hostility on the part of the son neither was there subservience jdr jr continued to support the philanthropies founded by the older man the rockefeller institute for medical research the general education board and the rockefeller foundation and to expand them did he do this because he like other men in public life like theodore roosevelt woodrow wilson louis d brandeis was inevitably swept up in the reform movement of the day that was only a part and possibly a minor one of his development for as his tastes became surer and his vocation clearer he ranged wider and wider until his interests were as large as those of his country and his world as one goes over the catalogue of his benefactions and interests none ever representing a perfunctory concern most requiring long years of careful planning with a devotion
